SENATE AGAIN KILLS INCOME TAX PROPOSAL

Bill Offered By State Tax Committee Is Lost By Two Votes.

WAS TWICE DEFEATED IN LOWER HOUSE

Senate Asks Congress to Enact Law to Deport Radical Aliens.

Columbus, Dec. 18.—Efforts to have the legislature enact a state income tax law failed again today, when the state senate a second time downed the bill proposed by the joint taxation committee. The vote was 15 to 11, two short of the necessary number. The bill has been twice defeated in the house.

The senate today by unanimous vote adopted the resolution by Representative Cummins of Lorain asking congress to enact laws providing for the immediate deportation of radical aliens. The house had adopted the resolution last spring.

Chairman Crabb of the house temperance committee announced today that the new prohibition enforcement measure will go over until after the holidays recess. Both houses are expected to recess this evening until January 12.

Representative Robbins of Ross county has introduced a joint resolution asking the war department to retire Major General E. C. Glavin, who commanded the 33rd division in France with his present rank. He soon is to be retired by reason of age.

Twice defeated in the house, the income tax bill was presented in the revised form in the senate last night and was beaten by a vote of 15 to 12. Motion was immediately made to reconsider this vote when the senate again convened at 10:30 o'clock this morning. Senator Wright who voted against the measure said he did so for the purpose of moving a reconsideration only and that he would vote for the bill today. Senator Whitmore intimated that he might change his vote from "no" to "yes" which would be sufficient to pass it. If the senate passes the bill it will be sent to the house for action.

"Failure to pass an income tax bill leaves but one alternative—the lifting of the limitations in the Smith one percent law," said Chairman Parrett of the taxation committee.

A bill to remove from the interior limitations of the Smith law interest and sinking fund charges was introduced in the house last night by Representative Cline of Cincinnati. It was referred to the joint taxation committee.

Rural members will fight any attempt to change the Smith law. Rather than see the Smith law changed, it was said that they might finally accept the revised income tax bill.

The new income tax bill now before the senate for reconsideration differs radically from the first one. It provides for a state income tax of one-half of one percent on personal incomes and permits municipalities to levy an additional tax on income for (Continued on Page 2, Col. 2)

COX GETS PLAN TO CUT COSTS

Former Food Administrator Croxton Would Enlarge Work of State Bureau of Markets.

Columbus, Dec. 18.—Fred C. Croxton, former federal food administrator for Ohio and Dr. H. B. Hagerly, former deputy food administrator for Ohio, today submitted to Governor Cox plans for enlarging the work of the state bureau of markets in an effort to reduce the high cost of living. The program contemplates the creation of a division of information and market news service, a division of co-operative organization, a division of standards and a division of public markets. The suggested budgets for the four divisions is \$39,350.

"Apparently the federal government has no comprehensive plan to meet present needs," says the letter, signed by Croxton and Hagerly.

"While many cost of living problems are fundamentally nation-wide or world-wide, and can better be handled through federal legislation, others can be handled satisfactorily through state legislation," says the report. "And in many cases the federal government must be shown the way by the state governments which are closer to the people."

Both Governor Cox and Attorney General Price, who have been making a high cost of living investigation in Ohio, joined in recommending legislation outlined by Croxton and Hagerly.

WHEELING BUSINESS MEN VISIT STEUBENVILLE

Steubenville, Dec. 18.—One hundred prominent business and industrial men of Wheeling, W. Va. were guests of the Steubenville Chamber of Commerce yesterday at a banquet given by Manager Billings of the Wheeling tractor company in conjunction with the new through street car service between the two cities. Able speakers dwelled on present public service and the future of this great Ohio valley.

GERMANY CAN'T PAY

Paris, Dec. 18.—(Havas)—German delegates are said by newspapers here to have furnished the allies proof that Germany cannot deliver all the harbor and dock material demanded in the protocol to the peace treaty. Allies are said to be disposed to consider a counter proposition which would reduce the amount by 200,000 tons.

MOTHER ACCUSED OF DROWNING SON

James M. Blake, Jr.

Mrs. Esther Blake was placed in the Atlantic City hospital recently, formally charged with the murder of her five-year-old son, James M. Blake, Jr. Mrs. Blake has suffered with a nervous ailment for years. She reported the boy's disappearance, claiming two negroes assaulted and beat the boy, kidnapping him. The boy's body was washed up on Ventnor beach later. She clings to her story of the kidnapping.

POLICEMEN AND FIREMEN TO BE PAID ON FRIDAY

Bonds Are Delivered To State Commission and Money Will Be Available For City Pay Roll.

City firemen and patrolmen as well as all officers of the safety department will receive their pay tomorrow. City Auditor Nelson A. Dodd delivered the \$13,377 worth of city bonds to the public utilities commission at Columbus today and will receive a check or voucher for that amount upon the state treasury.

"The men have six weeks pay coming and the greater part of the \$13,377.81 will be in circulation before January 1st, for the above amount will just cover one more pay day. Then arrangements will have to be made to secure the money elsewhere until the city gets its portion of the levy allowed by the budget commission."

RESIDENTS MAY CHOOSE MATERIAL FOR NEW ROAD

Property Owners on Mt. Vernon Road Asked to Meet Commissioners For Conference on Work.

Residents along the Mt. Vernon road are requested to meet with the county commissioners next Monday morning at 10 o'clock and discuss the material which they desire used on the road. The commissioners are desirous of pleasing those tax payers who will have to assume a portion of the cost. The county officials will receive \$150,000 federal aid on the highway extending from this city to Utica. There are yet ten miles of uncompleted improvements along the highway and it is the wish of the commissioners to have it completed next year. It may be let to various contractors.

In all probability a portion of the improvement will be of asphalt concrete. It being understood that Utica would like to have that sort of roadway connect the present road at the edge of the south corporate line. Other residents also favor asphalt concrete and sheet asphalt and they will be given an opportunity to express their preference next Monday.

SUGAR LEGISLATION IS AGAIN DELAYED

Washington, Dec. 18.—Sugar legislation received another setback in the senate today when the vote of the bill to extend federal sugar control and regulation during 1920 were unable because of protracted opposition debate to bring to a vote the house amendment. The senate has the powers proposed for the United States sugar equalization board.

CLEWS MAY LEAD TO APPREHENSION OF BANK ROBBERS

Officials Gain Information Regarding Trio Which Loots Vault.

LOOT AMOUNTS TO \$6000 BESIDES OLD COINS TAKEN

Loss of Silverware Not Heavy Congressman Ashbrook Declares.

Clews are developing which in time may lead to the discovery of the year-long robbery of the Johnstown Citizens bank early Tuesday morning. When the outside watchman commanded Cash Brush to throw up his hands, as the latter was on his way home from the Eagle club rooms, he admonished Brush not to look or he would be shot. When he marched Brush into the bank he locked the latter's cap down over his eyes.

Brush states that there were two men in the bank. They came over and assisted the third in tying a handkerchief across his eyes and another across his mouth. They then tied his arms behind him and tied his legs. One of the men secured a chair pillow and placed it upon the floor. They placed him on the floor with his head upon the pillow and commanded him to keep quiet.

Two men proceeded to the interrupted work. They had the front rear door of the bank open in order to let out the acetylene fumes which filled the room and caused the men to cough a great deal. The men took turns and one went out to relieve the other. The men took turns and one went out to relieve the other. The men took turns and one went out to relieve the other.

Brush said that he seemed hours to him the outside man came in and said: "Boys its ten minutes after five and we will have to make a getaway at once if we want to play safe. They up and left."

The Johnstown man then lying on the floor heard the same voice say: "We'd better make sure and make sure this guy and there won't be no comeback. The outside man then came in and said: "Boys its ten minutes after five and we will have to make a getaway at once if we want to play safe. They up and left."

"We know you but we've decided not to kill you and other things in the bank," he said. "You had better keep your mouth shut tonight's work for if you don't we'll get you sure as hell."

The men then carried out all their loot packed in everything and one fellow pulled the handkerchief from Brush's mouth and said: "Now don't try to get away. You won't have to try here over 15 or 20 minutes and that will be plenty long enough for us to make a getaway and come will find you and release you."

Brush was asked if there was anything he wanted. He replied that he was very cold from the draft rolling down the floor and the men gave him an old blanket and placed it over him and again cautioned him to be quiet, they said good-bye and a few minutes after he heard them leave in the machine.

Brush started working at his hands and in a few minutes succeeded in freeing one hand and it was then easy work to untie the other and unloose the blanket around his legs and take the blindfold off. He was numb from cold but went to the telephone office at once and gave the alarm. The operator (Continued on Page 2, Col. 3)

LAST OF ARMY GOODS SOLD, MAYOR SAYS

The army store is a thing of the past and the last of the goods in the West Main street have been disposed of and after the rent and all expenses have been met Mayor Atherton will possibly have to pay a portion of the expenses himself for the small percentage of profit which the government allows was not enough to meet the expense of establishing the store.

The sale totaled \$3,601 and this has been turned over to the officials in charge of the supply depot at Columbus. The mayor stated this morning that he does not expect to receive the other consignment of goods ordered. He says he has been given no encouragement that a similar venture be disposed of the lumber he had on hand and secured what salvage he could.

WHEN SANTA VISITED THE KIDDIES' WARD IN THE HOSPITAL

Scene just after Santa's annual visit to the hospital.

Old Santa Claus is an institution in nearly every land under the sun and he is especially the friend of the youngsters. He tries not to forget any of the little kiddies and although he has a big world to get around he makes a special effort to reach the orphan asylums and hospitals. In such places sunlight and joy are not too frequent visitors and for that reason Santa's annual visit is all the more welcome and appreciated.

Santa's visit to these little kiddies today has made them forget that they are in a hospital and they are all happy and cheerful with the new toys and their goodies from the Christmas tree.

STYRON-BEGGS GIVE EMPLOYEES SIX PCT. BONUS

Those In Continuous Service For Year Will Share In Firm's Profits Mr. Beggs Given Fine Watch.

The Styron-Beggs company, in South Fourth street, announced today that all employees in continuous service for a year would receive a 6% bonus of his yearly earnings as a Christmas present. Mr. Beggs, president and manager of the company, said that he had been with the firm for 15 years and that he had received a \$10 gold piece for Christmas and a \$10 gold piece for Christmas and a \$10 gold piece for Christmas.

Shortly before the noon hour the employees were called together and the above announcement was made. Then L. P. Shim, chemist of the plant, speaking for the employees, thanked the management for its generosity and on behalf of the employees, presented Frank L. Beggs, president and manager of the plant, with a handsome Green gold watch. The latter responded and thanked them all for his fine Christmas gift and assured them that it would ever be a reminder of the pleasant relations between employers and employees.

CHRISTMAS MAIL IS HEAVIER THAN IN 1918

The mailing of Christmas packages at the local post office started December 14. The mailing this year for the first three days has been heavier than that of the first few days last year. The incoming mails are becoming heavier and many Christmas parcels are being delivered.

BEA KUN ON TRIAL

Budapest, Dec. 18.—Bela Kun, former communist dictator of Hungary, following the publication of numerous reports that the end of the world was due today. No damage resulted although the shocks were more severe than those commonly felt in Mexico. In spite of the excitement there were no disorders.

BANKS WARNED AGAINST YEGGS

Mt. Vernon, Dec. 18.—Ranks in this section have been warned to keep close guard against the operations of robbers against the operations of robbers. Two acetylene tanks have been stolen from a local manufacturing plant. It was discovered yesterday, and officials fear they were taken by yeggs.

WEDNESDAY NIGHT WAS COLDEST OF THE SEASON

The mercury still continues to go down. Wednesday night at 10:30 the thermometer at the J. C. Brown grocery in East Main street registered 10 above zero and at 5 o'clock this morning 9 above, which is the lowest mark reached this winter. At noon today the temperature was 14 above.

WANT PROMISE OF ANNEXATION

Italians Under D'Annunzio Block Plan to Withdraw Under Agreement Made With Government.

Fiume, Wednesday, Dec. 17.—Obstacles to the withdrawal of Captain Gabriele D'Annunzio's forces brought about a new turn in the Fiuman situation today and may block acceptance of proposals made by General Badoglio, Italian chief of staff. Strong pressure is being exerted by a large number of soldiers who wish to remain in Fiume until formal annexation to Italy is promised and there are also various elements of the annexations waiting stronger guarantees even insisting that the present garrison be maintained as a regular Italian garrison under the command of D'Annunzio.

Peculiar is running at highest pitch preparatory to the plebiscite, which will be held tomorrow. A meeting was held this evening to discuss various phases of the question. It was announced as open only to citizens of Fiume, but it was packed with officers who have been sent to Fiume to gain admission. Most of the rest of the audience was made up of women and girls. There was some confusion and heckling between the various groups, one man who ventured to address the meeting as "A Fiuman who had fought for Italy," being sharply questioned by a spectator who said he was "a Fiuman who had fought for Austria Hungary because of a Fiuman he was an Austro-Hungarian subject."

The secretary of the Fiume national council read the terms of proposal made by General Badoglio urging its acceptance as tantamount to annexation to Italy.

TWO DEAD IN FIRE

Boston, Dec. 18.—Fire in the Abbotts Ford an exclusive apartment hotel in the Back Bay district, caused the death of two persons and drove nearly 50 others to the street in zero temperature early today.

VETERAN EDITOR OF STATE JOURNAL CALLED BY DEATH

Colonel Edw. S. Wilson Former Newark Man, Succumbs to Infirmities of Advanced Years.

Columbus, Dec. 18.—Colonel Edward S. Wilson, editor of the Ohio State Journal of this city since 1905, and previous that of United States Marshall of Porto Rico for five years, died at his home here today from the infirmities of age. He was 75 years of age. Colonel Wilson served with the 1st regiment Ohio volunteers infantry during the civil war and formerly edited a newspaper at Ironton, Ohio.

Governor Cox in a statement today said that Colonel Wilson, who died at 10:30 a.m., was a former editor of the Columbus editor-in-chief, who died today.

"I have long been an admirer of Colonel Wilson—the newspaperman and his works—and have felt honored that I might call him friend. In his personal associations as in his work he had the correct principle and earned the commendation even of those who did not agree with his spoken policies."

"He as an editorial writer, has appeared to me to be one of the outstanding examples of a school of journalism that is all but past. Never did I feel that I was compromising in his view of the public interest whose place will be difficult to fill."

SPECTACULAR FIRE IN NEW JERSEY ARSENAL

Dover, N. J., Dec. 18.—Causes of the spectacular fire which swept over part of the Picatinny arsenal following an explosion in the research laboratory late last night were made the subject of an official investigation by army officers today.

The fire destroyed four buildings, entailing a loss estimated as high as \$1,000,000. Five men were injured, one possibly fatally, but so far as could be ascertained there was no loss of life. The plant was said to be deserted at the time, save for guards.

The explosion rocked buildings in this town and was heard for 40 miles of the plant, summoned volunteer firemen from Walton and Rockaway, and marines from the nearby barracks at Lake Denmark. The work of fighting the flames was made hazardous by exploding shells and it was several hours before the flames were brought under control.

Private Oliver McCormick of Akron, one of the men injured by the explosion, died early today at the Dover general hospital. Paul Green of Boston and Ralph Luce and E. B. Butler, whose ailments are unavailing, are reported to be in a critical condition. All the men were quarantined at the marine barracks at the arsenal.

MAYOR SAYS HE WAS NOT ASKED ABOUT OFFICE

Mayor H. A. Atherton stated today that he had no desire to give up his present quarters to the new municipal judge, and that he was within his rights in vetoing the resolution requesting him to do so. The law explicitly states, he says, that the mayor's office shall be in the city building and it is within his power he proposes to keep it there. He said that the committee of council having the matter in charge never consulted him but went ahead on its own initiative.

Mayor Atherton will succeed himself on January 1, and the two directors of public safety and public service must begin their terms the day after Monday in January. They are newly appointed offices named by Mayor and he did not state whether he present officials would be reappointed or not.

Other officials in the various departments are appointed to serve until the name of their successor shall be announced.

STRICT ECONOMY IS PROMISED IN APPROPRIATIONS

Rep. Mandell Says All Estimates Will Be Pared Down.

ALLIES OWE U. S. HALF BILLION INTEREST ON WAR LOANS

Says Congress Must Cut Budget Billion Dollars To Be Safe.

Washington, Dec. 18.—All general appropriations for 1921 will be pared down "in accordance with strictest economy" except the post office and naval departments, the estimates of which are less than the present year. Majority Leader Mandell, Wyoming, told the house today when the first urgent deficit bill of this session was brought up. "Great reductions would be made in the army and fortification estimates," he said, the former request totalling \$382,800,000 and the latter \$117,793,330, an increase of more than \$106,000,000 over the present appropriation.

The balance of estimated liabilities over receipts, Mr. Mandell said, is \$3,050,508,374. Estimates of expenditures, he said, would suggest excessiveness. This, he explained, was true, adding, "at least we must make the excessiveness true when we write our appropriation bills; make it true by reductions of hundreds of millions of dollars."

Total estimated receipts for the year, he said, are \$3,050,508,374. "These official estimates of the receipts," he added, "are notable in that they carry no estimate of receipts on account of interest on our loans of \$16,000,000,000 at 6 percent. This interest if paid, would increase receipts and lighten our burdens for the year by nearly \$500,000,000."

Congress could cut the estimates at least a billion dollars, he said, and refuse every request which is not imperative. He added, "No provisions for increased pay for officers of the army or navy or the nurses corps, nor estimates for loans, contracts or department projects benefitting excessive men are made in any of the appropriation bills."

CADDOCK AND CLAPHAM READY FOR MATCH

Chicago, Dec. 18.—Earl Caddock, heavyweight wrestling champion, and Sam Clapham, holder of the British title, today declared they were ready for their match which was postponed because of Caddock's illness while both men were in the American expeditionary forces. His course in the immediate future, Caddock said, depends on the showing he makes tonight. He has been in the hospital since his illness, but he has recovered from the sickness and is ready to fight, he said, unless tonight's contest, his first since he was discharged from the army, proved he was fit for a grueling season he would retire temporarily to his farm in Iowa.

PACKERS TO QUIT MANY SIDELINES

Under Decree of Federal Court Chicago Corporations Agree To Drop Other Food Lines.

Chicago, Dec. 18.—A dozen or more important sideline industries of the Chicago meat packing industry, investments of many millions of dollars, will be disposed of under the stipulated decree soon to be entered in the United States court at Washington on motion of Attorney General Palmer.

Representatives of the packers today declined to discuss the details of the decree under which the packers in the future will be required to confine the business activities to the production of meat, poultry, butter, eggs and so on, it was learned from an authoritative source that the outline of the plan had been agreed upon.

Among the lines of business from it is said the packers will be ordered to withdraw under the stipulated decree are the following:

Leather, canned fruits and vegetables, soap, cleaning powders, groceries, fertilizers, cold storage, fish, refrigerator car lines, cement, glue, sugar, and the control of the stock yards.

Representatives of the packers express the view that under the proposed plan they might continue to manufacture soap and fertilizers as by-products of the meat packing industry. Some doubt was expressed as to whether cleaning powders is an animal product. One purpose of the proposed plan, it is said, is to prevent the packers from engaging in the wholesale grocery business.

Swift and company already have segregated its south American and Australian meat business, its fruit and vegetable canning, glue, sugar and its manufacture of leather. Wilson and company recently disposed of its wholesale grocery lines to a New York firm.

TROLLEY TRAFFIC UP

Salem, Mass., Dec. 18.—Support of virtually all trolley service on the Salem division of the East Massachusetts Railway company today turned thousands of residents of this city, Beverly and Peabody to walk in heavy zero weather or to ride in crowded unheated motor buses. The tie-up was in accordance with the suit of the trustees of the railway to have the city revoke all jitney service.

CUBA APPROVES TREATY

Havana, Dec. 18.—Approval of the treaty of peace with Germany was today voted by the Cuban senate last night. The treaty was brought before the house last night.

Tonight's games: B. & O. vs. Burke Golf; Midland vs. American Bottle.

The Holophane slogan, "get Heiseys" was lost in the landslide that hit the shade makers and only by a stroke of luck was the Holophane squad able to score at all. Barry caged the only tally for his team and was given two chances on free throws neither of which registered. Olson, Ruten and Herzog had their eyes on the hoop and scored repeatedly. Final score: Heisey 54, Holophane 0.

Heisey: Olson, Herzog, Ruten, Jones, c., Hagerstrand, c., McCleisley, lg., Adams, lg., Herzog, Lennie, rg., Eckert, rg., Field goals: Olson 7, Ruten 3, Herzog 3, Jones 3, Barry 1.

The second contest proved to be a fast one when the American Motor Truck successfully outpointed the Wehrle team and by the win changed places with the stove men in the league standing. Allen's quick playing with Young's good passing kept the motor boys in the lead. The Wehrle squad were handicapped by injuries to one of their forwards. Their inability to move the ball quickly cost them more than one good shot at the basket. Wehrle entered the name of a new eligible, T. O. Scatter, who will be eligible January 6. Final score: American Motor 17, Wehrle 4.

HARDING WILL EXPECT HELP FROM FRIENDS

Columbus, Dec. 17.—United States Senator Warren G. Harding is now openly in the race for the Republican nomination for President in 1920. His announcement that he would consent to the use of his name as a Presidential candidate and at the proper time, would file his declaration as required by law, came yesterday in a letter to J. Clare Hughes, chairman of the Republican executive committee of Miami county, the first county to endorse him for president. Although Harding says he cannot give his candidacy any personal activity before the convention at Chicago, June 8, it is expected that his friends in Ohio will at once proceed to attempt to secure for him the Ohio nomination. Headquarters may soon be opened in Columbus. Harry M. Daugherty has been among the leaders in urging him to assert to enter and expected to have charge of the pre-convention campaign. Harding's secretary will announce no platform at this time.

STRIKERS KILL AGED MAN.

Youngstown, Dec. 16.—The first fatality in Youngstown as a result of the steel strike came today with the death of Fred Pachen, 72, who was attacked and beaten while on his way home from a Carnegie Steel company plant, December 14. He recovered consciousness for one period of a few hours shortly after the attack. John Preach, alias John Pritch, 37, is under arrest in connection with the case. One other fatality occurred in East Youngstown, a separate village, a month ago.

COL. WILSON VERY WEAK.

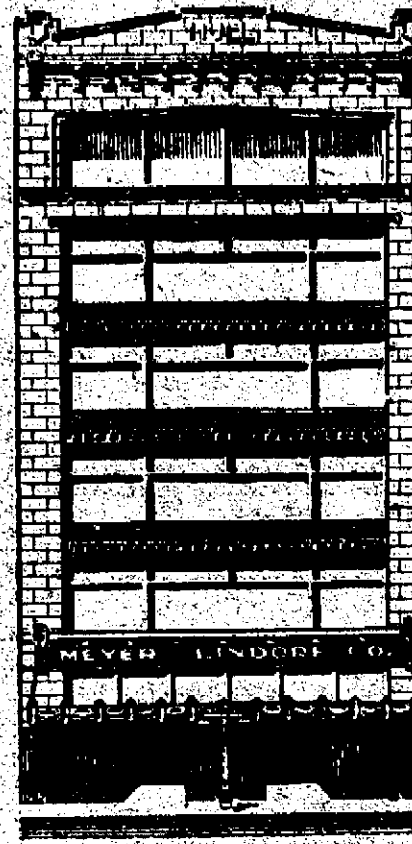

Col. E. S. Wilson's remarkable reserve strength brought him through another day yesterday. The dying colonel had a fairly comfortable day, sleeping much of the time. He has taken practically no nourishment for a week, but, despite his distressing physical condition, his mind is clear and his one remaining earthly desire seems to be that he may cause others as little trouble as possible.

SENATE AGAIN KILLS INCOME TAX PROPOSAL

Bill Offered By State Tax
Committee Is Lost By
Two Votes.

**WAS TWICE DEFEATED
IN LOWER HOUSE**

Senate Asks Congress to
Enact Law to Deport
Radical Aliens.

Columbus, Dec. 18.—Efforts to have the legislature enact a state income tax law failed again today, when the state senate a second time downed the bill proposed by the joint taxation committee. The vote was 15 to 11, two short of the necessary number. The bill has been twice defeated in the house.

The senate today by unanimous vote adopted the resolution by Representative Cummins of Lorain asking congress to enact laws providing for the immediate deportation of radical aliens. The house had adopted the resolution last spring.

Chairman Crabbe of the house temperance committee announced today that the new prohibition enforcement measure will go over until after the holidays recess. Both houses are expected to recess this evening until January 12.

Representative Robbins of Ross county has introduced a joint resolution asking the war department to retire Major General B. F. Glenn, who commanded the 83rd division in France with his present rank. He soon is to be retired by reason of age.

Twice defeated in the house, the income tax bill was again defeated in the senate last night and was beaten by a vote of 15 to 12. Motion was immediately made to reconsider this vote when the senate again convened at 10:30 o'clock this morning. Senator Whitmore introduced the measure and he did so for the purpose of moving a reconsideration only and that he would vote for the bill to-day. Senator Whitmore intimated that he might change his vote from "no" to "yes" which would be sufficient to pass it. If the senate passes the bill it will be sent to the house for action.

Failure to pass an income tax bill leaves but one alternative—the lifting of the limitation in the Smith one percent law," said Chairman Parrett of the taxation committee.

A bill to remove from the interior limitations of the Smith law interest and sinking fund charges was introduced in the house last night by Representative Gardner of Cincinnati. It was referred to the joint taxation committee.

Rural members will fight any attempt to change the Smith law. Failing that, they will fight the one percent law, said Chairman Parrett of the taxation committee.

The new income tax bill now before the senate for reconsideration differs radically from the one. It provides for a state income tax of one-half of one percent on personal incomes and permits municipalities to levy an additional tax on income for (Continued on Page 2, Col. 2)

COX GETS PLAN TO CUT COSTS

Former Food Administrator
Croxtan Would Enlarge
Work of State Bureau of
Markets.

Columbus, Dec. 18.—Fred C. Croxtan, former federal food administrator for Ohio, and Dr. J. E. Hagerty, former deputy food administrator for Ohio, today submitted to Governor Cox plans for enlarging the work of the state bureau of markets in an effort to reduce the high cost of living. The program contemplates the creation of a division of information and market news service, a division of co-operative organization, a division of standards and a division of public markets. The suggested budgets for the four divisions is \$29,350.

"Apparently the federal government has no comprehensive plan to meet present needs," says the letter, signed by Croxtan and Hagerty. "While many cases of living problems are fundamentally nationwide or world-wide, and can better be handled through federal legislation, others can be handled satisfactorily through state legislation." The report, "and in many cases the federal government must be shown the way by the state governments which are closer to the people."

Both Governor Cox and Attorney General Price, who have been making a high cost of living investigation in Ohio, joined in recommending legislation outlined by Croxtan and Hagerty.

**WHEELING BUSINESS MEN
VISIT STEUBENVILLE.**
Steubenville, Dec. 18.—One hundred prominent business and industrial men of Wheeling, W. Va., were guests of the Steubenville Chamber of Commerce yesterday at a banquet given by Manager Billings of the Wheeling Traction company in conjunction with the new through street car service between the two cities. Able speakers dwelled on present public utility and the future of this great Ohio valley.

GERMANY CAN'T PAY.
Paris, Dec. 18.—(Havas)—German delegates are said by newspapers here to have furnished the allies proof that Germany cannot deliver all the harbor and dock material demanded in the protocol to the peace treaty. Allied experts are said to be disposed to consider a counter proposition which would reduce the amount by 200,000 tons.

MOTHER ACCUSED OF DROWNING SON

James M. Blake, Jr.

Mrs. Esther Blake was placed in the Atlantic City hospital recently, formally charged with the murder of her five-year-old son, James M. Blake, Jr. Mrs. Blake has suffered with a nervous ailment for years. She reported the boy's disappearance, claiming two negroes assaulted her and the boy, kidnapping him. The boy's body was washed up on Ventnor beach last. She clings to her story of the kidnapping.

POLICEMEN AND FIREFMEN TO BE PAID ON FRIDAY

Bonds Are Delivered To
State Commission and
Money Will Be Available
For City Pay Roll.

City firemen and patrolmen as well as all officers of the safety department will receive their pay tomorrow. City Auditor Nelson A. Delli delivered the \$15,377 worth of city bonds to the public utilities commission at Columbus today and will receive a check or voucher for that amount upon the state treasury.

The men have six weeks pay coming and the greater part of the \$15,377.80 will be in circulation before January 1st for the about amount will just cover one more pay day. Then arrangements will have to be made to secure the money elsewhere until the city gets its portion of the levy allowed by the budget commission.

RESIDENTS MAY CHOOSE MATERIAL FOR NEW ROAD

Property Owners on Mt.
Vernon Road Asked to
Meet Commissioners For
Conference on Work.

Residents along the Mt. Vernon road are requested to meet with the county commissioners next Monday morning at 10 o'clock and discuss the material which they desire used on the road. The commissioners are desirous of pleasing those tax payers who will have to assume a portion of the expense. The county officials will receive \$150,000 federal aid on the highway extending from this city to Union. There are ten miles of uncompleted improvements along the highway and it is the wish of the commissioners to have it completed next year. It may be let to various contractors.

Inasmuch as a portion of the improvement will be of asphalt concrete, it being understood that Utica would like to have that sort of roadway connect the present road at the edge of the south corporation line. Other residents desire asphalt concrete and sheet asphalt and they will be given opportunity to express their preference next Monday.

SUGAR LEGISLATION IS AGAIN DELAYED

Washington, Dec. 18.—Sugar legislation received another setback in the senate today when advocates of the bill to extend federal sugar control and regulation during 1920 were unable to bring to a vote the house amendment broadening the powers proposed for the United States sugar equalization board.

SHORT IN PITTSBURGH DISTRICT.
Pittsburgh, Pa., Dec. 18.—Due to the failure of some miners to return to work, and the fact that a number of mines are not in condition to be operated, coal production in the Pittsburgh district has not yet reached 50 percent of normal, according to a statement issued by the Pittsburgh Coal Producers association.

DEMOCRATIC SENATORS CONFER.
Washington, Dec. 18.—A call for a conference of Democratic senators, Saturday, to select a leader to succeed the late Senator Martin of Virginia, was issued today by Senator Hitchcock of Nebraska, who is contesting with Senator Underwood of Alabama, for the place.

CLEWS MAY LEAD TO APPREHENSION OF BANK ROBBERS

Officials Gain Information
Regarding Trio Which
Loots Vault.

LOOT AMOUNTS TO \$6000
BESIDES OLD COINS TAKEN

Loss of Silverware Not
Heavy Congressman
Ashbrook Declares.

Clews are developing which in time may lead to the discovery of the yeggs-men who robbed the Johnstown Citizens bank early Tuesday morning. When the outside watchman commanded Cash Brush to throw up his hands, as the latter was on his way home from the "Blag" club rooms, he snatched Brush not to look or he would be shot. "When he marched Brush into the bank he jerked the latter's cap down over his eyes.

Brush states that there were two men in the bank. They came over and assisted the third in tying a handkerchief across his eyes and another across his mouth. They then tied his arms behind him and tied his legs. One of the men secured a chair pillow and placed it upon the floor. They placed him on the floor with his head upon the pillow and commanded him to keep quiet.

Two men proceeded to the interrupted work. They had the front and rear doors of the bank wide open and tried to let out the acetylene fumes which filled the room and caused the men to cough a great deal. The men took turns and one went out to relieve the outside watchman. They did so in minutes. A sheet or blanket was hung in front of the vault so the flames could not be seen if any one was in the upstairs rooms across the street.

Brush said that after what seemed hours in him the outside man came and said "Boys it's ten minutes after five and we will have to make a get-away at once if we want to play safe. Pack up and let's slide."

The Johnstown man, then lying on the floor, heard the same words. "We'd better make sure and make this guy and there won't be no comeback from him." The three then went into the rear and he could hear them talking in low tones and he heard some one coming up to him across the floor. The prostrate man thought his time had come and believed that one had a sledge to crush his skull so that there would be no noise when the fellow came to him.

"We know you but we've decided not to kill you. I'll tell you this though, that you had better keep mum about tonight's work for if you don't we'll get you sure as hell." The men then packed up everything and one fellow pulled the handbag off Brush's mouth and said: "Now don't try to get away. You won't have to lay here over 15 or 20 minutes and that will be long enough for us to make a getaway. Some will find you and release you."

Brush was asked if there was anything he wanted. He replied that he was very cold from the draft rolling across the floor. One of the yeggs then secured an old blanket and placed it over him and again cautioned him to be quiet. They said good-bye and a few minutes after he heard them leave in the machine.

Brush started working at his hands and in a few minutes succeeded in freeing one hand and it was then easy work to untie the other and unloose the band around his legs and take the blindfold off. He was numb from cold but turned to the telephone office at once and gave the alarm. The operator (Continued on Page 2, Col. 3)

LAST OF ARMY GOODS SOLD, MAYOR SAYS

The army store is a thing of the past and the counters and other fixtures in West Main street have been disposed of and after the rent and all expenses have been met Mayor Atherton will have left over a portion of the expenses himself for the small percentage of profit which the government allows was not enough to meet the expense of establishing the store.

The sale totaled \$3,601 and this has been turned over to the official in charge of the supply depot at Columbus. The mayor stated this morning that he does not expect to receive the other consignment of goods ordered. He says he has been given no encouragement and that he is now in possession of the lumber he had on hand and secured what salvage he could.

WHEN SANTA VISITED THE KIDDIES' WARD IN THE HOSPITAL

Scene just after Santa's annual visit to the hospital.

Old Santa Claus is an institution in nearly every land under the sun and he is especially the friend of the youngsters. He tries not to forget any of the little kiddies and although he has a big world to get around he

makes a special effort to reach the orphan asylums and hospitals. In such places sunlight and joy are not too frequent visitors and for that reason Santa's annual visit is all the more welcome and appreciated. Christmas tree.

Santa's visit to these little kiddies today has made them forget that they are in a hospital and they are all happy and cheerful with the new toys and their goodies from the more welcome and appreciated. Christmas tree.

STYRON-BEGGS GIVE EMPLOYEES SIX PCT. BONUS

Those In Continuous Service
For Year Will Share
In Firm's Profits Mr.
Beggs Given Fine Watch.

The Styron-Beggs company, in South Fourth street, announced today that all employees continuously in the company's service for a period of one year would receive a 5% bonus of his yearly earnings as a Christmas present. Married employees who have been with the firm for less than a year are to receive a \$10 gold piece for Christmas and unmarried employees with the firm less than a year a \$5 gold piece. This custom will be continued in the future.

Shortly before the noon hour the employees were called together and the above announcement was made. John P. Shim, chairman of the plant, speaking for the employees, thanked the management for its generosity and on behalf of the employees, presented Frank L. Beggs, president and manager of the plant, with a handsome Gruen gold watch. The latter responded and thanked them all for his fine Christmas gift and assured them that it would ever be a reminder of the pleasant relations between employers and employees.

The directors organized by electing Otto N. Moore president and general manager; John A. Chilcote, vice president; and C. C. McGrugher secretary and treasurer.

HARTFORD TP. TO VOTE ON SCHOOL BOND ISSUE

A special election to vote on a \$90,000 bond issue will be held in Hartford township Tuesday.

The community will vote on the issue of \$90,000 worth of bonds to be used in erecting a new school. The new building will replace the present centralized school.

CHRISTMAS MAIL IS HEAVIER THAN IN 1918

The mailing of Christmas packages at the local post office started December 14. The mailing this year for the first three days has been heavier than that of the first few days last year. The incoming mails are becoming heavy and many Christmas parcels are being delivered.

WEDNESDAY NIGHT WAS COLDEST OF THE SEASON

The mercury still continues to go down. Wednesday night at 10:30 the thermometer at the J. C. Brown grocery in East Main street registered 10 above zero and at 5:30 o'clock this morning 9 above. This is the lowest mark reached this winter. At noon today the temperature was 14 above.

WANT PROMISE OF ANNEXATION

Italians Under D'Annunzio
Block Plan to Withdraw
Under Agreement Made
With Government.

Fiume, Wednesday, Dec. 17.—Obstacles to the withdrawal of Captain Gabriele D'Annunzio's forces brought about a new turn in the Fiuman situation today and may block acceptance of proposals made by General Badoglio, Italian chief of staff. Strong pressure is being exerted by a large number of soldiers who wish to remain in Fiume until formal annexation to Italy is promised and there are also various elements of the annexations waiting stronger guarantees even insisting that the present garrison be maintained here until the Italian garrison under the command of D'Annunzio.

Fiume is running at highest pitch preparatory to the plebiscite, which will be held tomorrow. A meeting was held this evening to discuss various phases of the question. It was announced as open only to citizens of Fiume, but it was packed with officers who have donned citizens clothes to gain admission. Most of the rest of the audience were women and girls. There was some confusion and heckling between the various groups, one man who ventured to address the meeting as "A Fiuman who had fought for Italy," being sharply questioned by a spectator who said he was "a Fiuman who had fought for Austria Hungary because being a Fiuman he was an Austro-Hungarian subject."

The secretary of the Fiume national council read the terms of proposal made by General Badoglio urging its acceptance as tantamount to annexation to Italy.

Here Regarding Site.

Considering Newark as a plausible site for location E. A. Field of the Field Engine company of Chicago is spending a few days in Newark looking over the city and conferring with the Chamber of Commerce.

The Reed Foundry and Machine company of Michigan, manufacturers of tractors is said to be seeking a change of location and it is intimated that the two concerns may combine their plants in a new location.

QUAKE FELT IN MEXICO.
Mexico City, Wed., Dec. 17.—Earthquake shocks at 6 o'clock tonight caused some excitement among the people, following the publication of numerous reports that the end of the world was due today. No damage resulted although the shocks were more severe than those commonly felt in Mexico. In spite of the excitement there were no disorders.

VETERAN EDITOR OF STATE JOURNAL CALLED BY DEATH

Colonel Edw. S. Wilson
Former Newark Man,
Succumbs to Infirmities
of Advanced Years.

Columbus, Dec. 18.—Colonel Edward S. Wilson, editor of the Ohio State Journal of this city since 1905, and previous that of United States marshal of Porto Rico for five years, died at his home here today from the infirmities of age. He was 78 years of age. Colonel Wilson served with the 91st regiment, Ohio volunteer infantry during the civil war and formerly edited a newspaper at Ironton, Ohio.

Governor Cox in a statement today paid the following tribute: Colonel E. S. Wilson, veteran Columbus editor and writer, who died today: "I have long been an admirer of Colonel Wilson—the newspaperman and his works—and have felt honored that he should call him friend. In his personal associations as in his work he had the correct principle and earned the commendation even of those who did not agree with his spoken policies."

"He, as an editorial writer, has appeared to me to be one of the outstanding examples of a school of journalism that is all but past. Never did he but always uncompromising in his view of the right, he has served as a guardian of the public interest whose place will be difficult to fill."

SPECTACULAR FIRE IN NEW JERSEY ARSENAL

Dover, N. J., Dec. 18.—Causes of the spectacular fire which swept over part of the Picatinny arsenal following an explosion in the research laboratory late last night were made the subject of an official investigation by army officers today.

The fire destroyed four buildings, entailing a loss estimated as high as \$1,000,000. Five men were injured, one seriously, but his condition is reported as unimpaired. The loss of life was ascertained there was no loss of life. The plant was said to be deserted at the time, save for guards.

The explosion rocked buildings in this town and was heard 40 miles away. Major O. J. Miles, in charge of the plant, summoned volunteer firemen from Walton and Rockaway, and marines from the nearby barracks at Lake Denmark. The work of fighting the fire was made hazardous by exploding shells and it was several hours before the flames were brought under control.

Private Oliver McCormick of Akron, one of the men injured by the explosion, died early today at the Dover general hospital. Paul Green of Boston and Ralph, Lucas and E. E. Butler, whose address are unavailable, are reported to be in a critical condition. All the men were quarantined at the marine barracks at the arsenal.

MAYOR SAYS HE WAS NOT ASKED ABOUT OFFICE

Mayor H. A. Atherton stated today that he had no desire to give up his present quarters in the new municipal building, and that he was within his rights in vetoing the resolution requesting him to do so. The law explicitly states, he says, that the mayor's office shall be in the city building unless it is within his power to propose to keep it there. He said that the committee of council having the matter in charge never consulted him but went ahead on its own initiative.

Mayor Atherton will succeed himself on January 1 and the two directors of public safety and public service, who begin their terms the second Monday in January. They are the only appointive offices named by the mayor and he did not state whether the present officials would be reappointed or not. Other officials in the various departments are appointed to serve until the name of their successor shall be announced.

STRICT ECONOMY IS PROMISED IN APPROPRIATIONS

Rep. Mandell Says All
Estimates Will Be
Pared Down.

ALLIES OWE U. S. HALF BILLION
INTEREST ON WAR LOANS

Says Congress Must Cut
Budget Billion Dollars
To Be Safe.

Washington, Dec. 18.—All general appropriations for 1921 will be pared down "in accordance with strictest economy" except the post office and naval departments, the estimates of which are less than the present year, Majority Leader Mandell, Wyoming, told the house today, when the first urgent deficit bill of this session was introduced. The greatest reductions would be made in the army and fortifications estimates, he said, the former request totalling \$892,800,000 and the latter \$117,793,330, an increase of \$106,000,000 over the present appropriation.

The balance of estimated liabilities over receipts, Mr. Mandell said, is \$2,050,508,874. Estimates of expenditures he said, would suggest excessiveness. This, he explained, was true, adding: "At least we must make this excessiveness true when we write our appropriation bills; make it true by reductions of hundreds of millions of dollars."

Total estimated receipts for the year he said are \$2,055,834,000. "These official estimates of the receipts," he added, "are notable in that they carry no estimate of receipts on account of interest on our loans of \$10,000,000,000 to foreign governments. This, he said, would add to our receipts and lighten our burdens for the year by nearly \$500,000,000." Congress could cut the estimates at least a billion dollars and refuse every request which is not imperative, he added. "We must not increase pay for officers of the army or navy or the nurses corps, nor estimates for loans, bonuses or department projects benefiting ex-service men are made in any of the appropriation bills."

CADDOCK AND CLAPHAM READY FOR MATCH

Chicago, Dec. 18.—Earl Caddock, heavyweight wrestling champion, and Sam Clapham, holder of the British title today declared they were ready for their match which was postponed because of Caddock's illness while both men were in the American expeditionary forces. His course in the immediate future, Caddock said, depends on the showing he makes tonight. He believes that he will recover from the sickness contracted in France, but unless tonight's contest, his first since he was discharged from the army, proved he was fit for a grueling season he would retire temporarily to his farm in Iowa.

PACKERS TO QUIT MANY SIDELINES

Under Decree of Federal
Court Chicago Corporations Agree To Drop
Other Food Lines.

Chicago, Dec. 18.—A dozen or more important sideline industries of the Chicago meat packers, involving investments of many millions of dollars will be disposed of under the stipulated decree soon to be entered in the United States court at Washington on motion of Attorney General Palmer.

Representatives of the packers today declined to discuss the details of the decree under which the packers in the future will be required to confine the business activities to the production of meat, poultry, butter, eggs and cheese. It was learned from an authoritative source that the outline of the plan had been agreed upon.

Among the lines of business from it is expected the packers will be ordered to withdraw under the stipulated court decree are the following: Leather, canned fruits and vegetables, soap, cleaning powders, groceries, fertilizers, cold storage, fish, refrigerator car lines, cereals, glue, sporting goods and the control of the stock yards.

Representatives of the packers express the view that under the proposed plan they might continue to manufacture soap and fertilizers as they are by-products of the meat packing industries. Some doubt was expressed as to whether cleansing powders is an animal product. One purpose of the proposed organization, it is said, is to prevent the packers from engaging in the whole-sale grocery business.

Swift and company already have segregated its south American and Australian meat business, its fruit and vegetable-canning industry and its manufacture of leather. Wilson and company recently disposed of its whole-sale grocery lines to a New York firm.

TROLLEY TRAFFIC THROTTLED.
Salem, Mass., Dec. 18.—Suspension of virtually all trolley service on the Salem division of the East Massachusetts Railway company today brought thousands of residents of this city, Beverly and Peabody to walk in below zero weather or to ride in crowded heated motor busses. The tie-up was in accordance with the suit of the trolley of the railway to have the city revoke all jitney service.

CUBA APPROVES TREATY.
Havana, Dec. 18.—Approval of a treaty of peace with Germany was unanimously voted by the Cuban congress last night. The treaty was brought before the house by the ministry of foreign affairs.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about \$1.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2 1/2 ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

SEAL QUOTA IS NOT YET REACHED

Sales Pick Up, But County Still Is Far From Goal—Many Do Not Understand "Why is a Red Cross Seal."

A greater effort is being made this week in the buying of Red Cross Christmas seals. The committee and workers are working hard and this sale of stamps in the stores is greater than ever before. However, selling cannot be still far away from its quota of \$2600. Merchants and manufacturers who have not been solicited have been asked to telephone Mrs. Harry P. Scott who is in charge of the campaign, or to put a check to her and she will supply them with the stamps. Contributions no matter how small from any one will be gladly received to help in the worthy work, the chairman announced Thursday.

Eighty per cent of the proceeds from the sale of the stamps is used for the treatment and relief of tubercular patients in this country. The other 20 per cent goes to the national organization for use in fighting this disease.

Those selling stamps in stores in the city find many do not understand what the stamps are for nor how the money is used. The stamps are suitable for the decoration of Christmas packages and are used extensively during the holiday season on all classes of mail, not as postage, as some seem to think, but for decoration, to give a touch of the Christmas spirit to package or letter.

In using the stamps on letters or packages to be mailed, the postoffice department has directed that they be placed on the reverse side from that containing the address. This is required to prevent checks in the postoffice from confusing them with postage stamps during the rush of the holiday season.

SENATE AGAIN

local purposes to not to exceed one and one-half percent on the first \$1,000, 3 percent on \$2,000, 4 1/2 percent on \$5,000 incomes and 6 percent on all over \$5,000.

As the income bill now stands the provision which would permit taxing authorities to inquire into bank deposits is removed. With this objection removed there was said to be a chance that it might gain support if it again comes up in the house.

The Griswold bill to amend the Hughes health code by removing mandatory provisions relative to employment of full time health officers had passed both houses last night and is to come up in the house again today for concurrence in senate amendments. The senate amended the bill by authorizing the withholding of state aid to local health districts unless full time health officers are employed and by authorizing county budget commissions instead of health advisory councils to approve budgets for the health organizations.

The Crabbe prohibition enforcement bill was recommended for passage by the house temperance committee last night with amendments providing for 10 inspectors, six of whom shall be Republicans and four Democrats. An attempt may be made to pass the bill today.

After debating the Ike bill to repeal Ohio's indeterminate sentence law until nearly midnight last night the house defeated the bill by a vote of 44 to 27.

The senate passed the Hopley bill to change the primary election for the benefit of United States Senator Warren G. Harding so he would not have to file his declaration as a candidate for United States senator until after the Republican national convention at Chicago, June 8.

The bill making the time for filing declarations 45 instead of 60 days ahead of the August primary. Senator Miller's bill to consolidate the August primaries with the primary in April to elect delegates to the state convention, thus effecting a saving of about \$300,000 has been side-tracked by Republican leaders. If this bill were adopted it would require Harding to seek renomination for the senate before the national convention is held.

CHARLES A. STOLTZE

Charles A. Stoltze, aged 49 years, died this afternoon at 2 o'clock at his home, 15 Wilwood avenue.

Mr. Stoltze had been in ill health for the past five years. He was formerly a member of the firm of Stoltze Brothers in business at Fifth and West Main street. His wife Catherine Stoltze died in August of this year. He leaves three brothers, George, Joseph and William all of this city. The funeral will probably be held Friday.

Lived Together Two Weeks

Mary Nives, through her attorney, B. G. Smythe, has filed a petition in common pleas court against Ralph Nives. They were married July 4, 1914, and the plaintiff alleges that a separation took place two weeks afterwards, and that at that time the defendant ordered her to leave him and to return to the home of her parents. They have not lived as man and wife since. At the time of marriage plaintiff was only 18 years old, she alleges and states that it was consummated without their consent. She asks for a divorce and restoration to her maiden name.

then discovered that the cables were all cut but the long distance lines were open. She called the Newark office and reported the robbery. That was about 6 o'clock and as the men called in from their beats they were instructed to keep a lookout for a closed machine with three men.

Shortly before 8 o'clock Gid Fulk at Johnstown saw a machine come from Newark. It turned the corner onto the National road and started towards Zanesville. Fulk said he expected to see the car wrecked for the way it took the corner.

Brush also said that once while laying on the floor he raised his head as the acetylene fumes bothered him. He found a gun pressed against his ear and the fellow holding it said: "Don't do that. Just lay quiet or I'll shoot, and only shoot once."

Although the big round manganese steel safe inside the vault cannot be opened on account of the molten metal extracted from it as well as \$1,000 in currency and \$2,000 worth of Liberty bonds, a metal box containing \$7,700 was left but the money is badly scorched from the heat of the acetylene flame but it can not be handled. It will be sent to the U. S. treasury for redemption.

Congressman William A. Ashbrook, who arrived home from Washington yesterday, states that the thieves secured his entire collection of old gold coins, between four and five hundred of them. He began making the collection when a young man 25 years of age, and after being sent to congress, was appointed on the coinage committee and had opportunity to purchase sample coins from the mint, some of which were never issued by the government while a limited set of the coins were issued and then recalled. It was a valuable collection which can never be replaced and several of the coins were worth fabulous prices.

Congressman Ashbrook's greatest loss however was in the carrying away of the family silver. He had it in the home for years and there was much sentiment connected with it. The monetary loss not being so great, much of it having been purchased as gifts for the late Mrs. Ashbrook.

There is on exhibition at the bank today a 12-pound cone burned out of the burglar proof safe. The valuables being drawn out of the hole after the cone was removed by a pair of tongs for an arm and hand could not have been thrust through it on account of the intense heat, it being impossible to handle it up until noon yesterday, the steel still holding the heat.

The loss to the bank is fully covered by insurance and business was resumed the morning after the robbery. As is the case with all country banks but little cash is carried, the money of the institution being placed in depositories in the larger cities.

HIGH SCHOOL PUPILS TO GIVE DICKENS PLAY

The members of the Thalian and Athenian literary societies of the High School will present Dickens's Christmas carols Friday afternoon at 2 o'clock in the high school auditorium. The entertainment is being prepared under the direction of Miss Thomas and Miss Jones of the faculty.

No Flattery Intended

"Is that a portrait of your grandmother when she was young?" asked the awkward visitor. "How it resembles you, Miss Ugleton."

"Now you only say that to flatter me. Grandma was quite a beauty, and everybody knows that I—ahem—I make no pretensions of that kind."

"I assure you, Miss Ugleton," exclaimed the A. V., "flattery is far from my thoughts. The family resemblance is striking. I've often known cases like that. There were two sisters I knew when I was a boy. They were wonderfully alike, like that portrait's like you, and yet one of them was as beautiful as a poet's dream, and the other was dreadful—that is, I mean, she was lacking in that—rather, she was lacking in that—(that attractive quality, you know, that constitutes—what a lovely frame this portrait has, eh?)—Edinburgh Scotsman."

Easy Diagnosis

There was a long line of waiting patients when he entered the doctor's office, but he didn't seem to care for that. And his nonchalance was soon justified, for the assistant came out, looked the patients over and said to this tardy arrival: "You are next." It was his air of prosperity that got him this favor, for he had never been there before. In the office the physician greeted him cordially, too. He examined him gently, deftly, briefly. Then said: "Ah! Dyspepsia." "I know it," said the patient, languidly. "Yes, of course you would know it. Now, how long have you suffered from it?" "Well, let's see. I inherited my money in 1912." That fixed the date and the doctor was able to go ahead with the case.—Cleveland Plain Dealer.

Flour a Dollar a Pound

Food prices at present seem high, but they are nothing compared with prices in Alaska during the gold fever. A book recently reviewed in our columns, says that at Dawson in 1898 sugar was seventy-five dollars a sack, flour a dollar a pound, eggs a dollar and a half each. But the money came as easily as it went. A man who was low in funds happened to get a paper with news about the Spanish-American war at a time when no newspapers had been received for several weeks. He read a few choice items to a crowd about the post office and they announced that he would read the rest in a hall near by at one dollar a head for admission. Five hundred men crowded in.

Shakespeare's "Seven ages of man" pay tribute to Horlick's Malted Milk

In these interesting extracts from letters to us the story is told:

1st Age. "First the infant in the nurse's arms"
"Words fail to express how grateful I am to Horlick's Malted Milk. My babe was given up; it was said she would not live through the night. But the next morning it still lived, and while we anxiously watched it, a neighbor persuaded us to try 'Horlick's'. It was like putting oil on the wick of a dying lamp; she improved rapidly, and is now the joy of the house."

2d Age. "Then the school boy with his shining morning face"
"I raised five children on 'Horlick's', and they all love it still. It can't be beat as a nutritious lunch between meals for a growing boy or girl."

3d Age. "Then the soldier seeking reputation at the cannon's mouth"

"Clara Barton of the Red Cross in her stories of the Spanish-American War told how Colonel Roosevelt asked the Red Cross to sell him some supplies for some sick men in his regiment, but she declined. 'We cannot sell them, but you can have them for asking.' 'Oh, then I do ask for them.' 'All right, what is on your list?' The list was Horlick's Malted Milk, etc. Colonel Roosevelt slung the heavy sack over his shoulder, and trudged off through the jungle."

4th Age. "And then the lover with his ballad"

"Horlick's growth as a fountain favorite has been marvelous. A constant stream of young couples in the afternoon and evening call for Horlick's Malted Milk, chocolate or plain. 'Horlick's' is a favorite lunch hour drink around universities with the students. A glass making a meal, they find it very economical and healthful."

6th Age. "The sixth age with spectacles on nose"

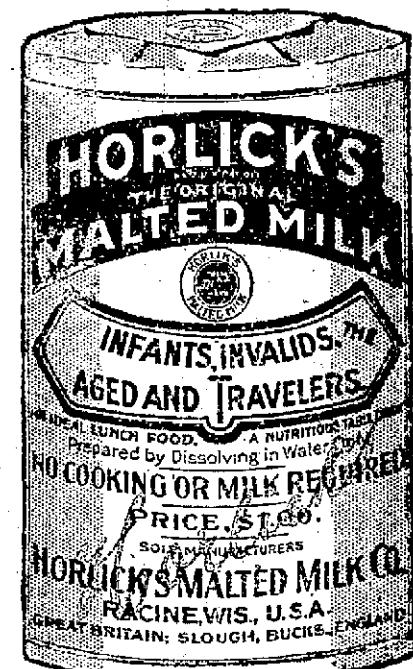

"I am 80 years old, and consider it a fortunate day when a friend induced me to try a cup of Horlick's Malted Milk. I use it with benefit and pleasure two or three times a day. It is delicious and has done me a world of good."

7th Age. "Last scene of all that ends this eventful history"

"I could not do without it. It surely is a sleep producer and I am a nervous person, but Horlick's Malted Milk has helped me greatly. I have learned by experience that 'Horlick's' is as excellent for well people as for invalids."

BOLSHEVIKI FIGHT ALLIES' PLAN FOR PEACE IN ESTHONIA AT DORPAT MEET

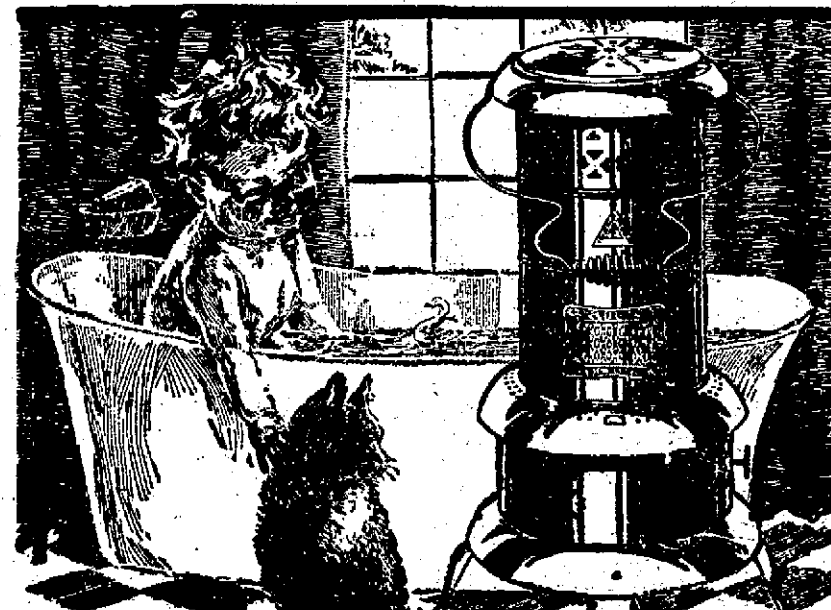

The bolshevik delegates at the Dorpat peace conference which is attempting to clear up the Balkan situation, have rejected the allied-Estonian plan for a protracted armistice. They declare that the conference must end with peace or a resumption of hostilities.

1—Esthonia has been trying to straddle the fence between the allies and the bolsheviks.

2—The bolsheviks want the port of Revel to be open to their commerce free.

3—The bolsheviks are also suggesting a neutralization of the Gulf of Finland under a "gentleman's agreement."

The Reds hope thus to get the British away from Kronstadt. "The Reds are afraid that they intend to hold this Gibraltar at the door of Petrograd and be a constant menace to soviet Russia. Adolph Joffe, former Russian soviet ambassador to Berlin, is president of the Dorpat conference."

CONGRESS A FAILURE.

Immediate peace was the demand of G. O. P. leaders in congress, many, many months ago. But with the responsibility for conclusion of peace placed in the senate, a different time was played. And so it has been in every instance up to now. Bitter criticism of the President and administration has been voiced and penned by Republican leaders at every opportunity. Then when the question is directly put into the hands of either branch of congress for settlement, congress has failed to act.

The unrest in the nation, the industrial stagnation despite nationwide and worldwide demand, the uncertainty of being neither at peace nor at war, are directly chargeable to the Republicans in congress. There can be no escape from responsibility.

BAKER'S GREAT TASK.

So effectively and completely has demobilization been effected by Secretary of War Baker in accordance with the meager army allowances granted by congress, that today, if Mexico were to be invaded, it would be necessary to resort to the draft. In bringing the army home from Europe and in effecting demobilization, Secretary Baker has eclipsed all records ever made by any nation in the history of the world. All records were smashed in raising an army of over four millions and in training it and transporting it across the seas.

One must admire the Secretary of War not alone for his magnificent accomplishment but for his ability to go ahead and to the job faithfully, even under the merciless fire of faultfinders who, not daring to attack the President in time of war, directed their attacks against Secretary Baker and Secretary Daniels, two of the most important members of the war time cabinet.

Yet today we hear on every hand of the wonderful patriotism of these G. O. P. leaders. It does not require much of a stretch of imagination to believe that politics was more important to some of them than patriotism. The war record of most of those chosen for chairmanships of the important, congressional committees, will not arouse enthusiasm in any loyal American circles. Criticisms of the administration in the war, not creative nor constructive either, has been rewarded in the American congress since the G. O. P. gained control. And more than one speech and more than one official action of both senate and house has been received with openly expressed pleasure in Berlin.

The legislature has had surveys, experts of one kind and another, attorneys who are well up in the party circles and who are paid fancy salaries, and many other luxuries at the expense of the taxpayers. Some of these have in one way or another drawn two or more salaries from the state. Results accomplished—probably the gathering of some political capital for the campaign. Results for the taxpayers and state-at-large—nil.

Senator Fall found the President on the road to recovery, mentally and physically capable and in full possession of every faculty, which must have been a severe disappointment to many G. O. P. senators on the hill who would gladly take a day off and attend his funeral.

Senator Moses, author of one of the meanest and most vicious hits of gossip about President Wilson, does not seem to realize that a public apology might at least condone a portion of his offense.

Did You Know
That the statute mile is 5,280 feet? The nautical mile or British admiralty knot is 6,080 feet. The statute knot is 6,082 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus: The circumference of the earth is divided into 360 degrees, each degree containing 60 knots, or 21,600 knots to the circumference. The number of feet in the earth's circumference, 25,158, is divided by this sum which gives 6,082.

XXVIII.—Friendly Advice.

No further reference was made to the episode of the dinner party at Martha's by either Keitha or Bennett, but Keitha's attitude was proof sufficient that she had not forgotten. She was very gay and keen for society. For several weeks she made it a point to leave the office early and pay special attention to her dinner costumes. She accompanied Bennett to the theater and to dances, quite as enthusiastically and indefatigably as the merest debutante.

But the strain told, and late hours brought shadows around her pretty eyes and a quick irritability to her even temper. "I can't keep it up, Celia," she said despairing to Cecelia's faithful. "Lester is indefatigable. He can dance all night, change to business clothes and rush off to the office, looking as fresh as though he'd had twenty-four hours sleep."

"I guess it's the army training," murmured Cecelia sympathetically. "You poor dear, you're all worn out trying to be a good sport. Keitha honey, why don't you give it up and be domesticated for a while?"

"Ugh!" Keitha shuddered. "I should perish of ennui. I wasn't meant for domesticity."

"Then what on earth did you marry for?" "I don't know," Keitha confessed, her eyes narrowing with reminiscence. "There wasn't time to stop to ask myself why I was marrying. Everything seemed breathless and unnatural and I felt that I must do it quickly while Lester and I were still alive. There was a heady sort of excitement in the air that drove on and the rush of events kept at bay the doubts which I felt in my secret heart."

"Keitha, that's perfect drivel!" declared Cecelia, shaking her fluffy head. "I believe you're like all other women who want a career—temperamental and full of silly moods. You talk like the heroine of a problem novel. Why don't you stop analyzing your emotions and just be happy?"

Keitha regarded her friend curiously. "I do believe you're getting practical. Isn't it odd for you?"

"Just because I've always talked like a silly goose doesn't mean I think like one," she said with a charmingly superior air.

"Marriage has changed you, Celia, there's no denying it," sighed Keitha. "Certainly it has made a difference in my mental processes. I never was given to introspection before, nor did I have the sense of being oppressed with problems."

"Problems that don't really exist either," insisted Cecelia. "Forget them, honey, and be happy. Less is an adorable boy, really. And stnirly good-looking. I actually believe you'd rather have some noble creature with an Adam's apple and no chin."

Keitha fung out her hands hopelessly. "That's just the point. He is stunning looking and that's what must have made me marry him like a sentimental fool. Even now, when I am utterly disappointed in him, I have only to look at him and I weaken."

"But for heaven sake, Keitha, what do you want him to be?" "I don't know," confessed Keitha miserably. Cecelia reached over and patted Keitha's hand with a maternal air. "Well, I do; you want Lee to be crazy about you, that's what you want, and how on earth is he going to be, if you persist in this attitude of yours?"

Keitha rose with dignity and moved away. "You'll never understand, Celia. No body could."

Tomorrow—An Unexpected Decision.

LITTLE TALKS ON THRIFT

By S. W. STRAUS, President American Society for Thrift.

That the people of our country are continuing to save money is indicated by the reports being made by banks, which show a continual gain in deposits of money made by the general public for savings purposes.

Jay Cooke, who was responsible for the successful financing of the Civil War, used to say "the easiest way to get money is to save it." The people of the United States to-day are exemplifying the truth of Jay Cooke's statement. Where there is no thrift there can be no progress, either national or individual.

If you are a salaried man, how do you propose to advance, excepting as you add portions of your income regularly and systematically to your capital? You may reply that you will increase your earning power as you grow older or as you become more efficient. Let this fact be granted. Let it be conceded that you will go along from year to year constantly increasing your income; that you escape illness, accident, unemployment and other disasters that may restrict your earning capacity. Grant even that, through a long series of years, no ill-luck befalls you and your income constantly is growing, and then—what is the answer?

may be our station in life, whatever may be our environment, we must be selfish to the extent of making provision for our own future. No matter how prosperous you may be to-day, how successful you may think you are or how promising the future may appear, you are a failure unless you are saving money; and no matter how badly you may seem to fare nor how rough are the steep roads you travel, you are a success if you are saving money. America has a mighty army of money savers. Are you one of them? If you are not, then you are far from the pathway of success.

E. O. RANDALL OHIO HISTORIAN IS DEAD

Columbus, Dec. 18.—E. O. Randall, historian and reporter of the Ohio supreme court, died at his home here today. He was 69 years old.

Randall was admitted to the bar in Columbus in 1890 and since 1895 has been official court reporter of the Ohio supreme court. He was a delegate from Ohio to the Republican national convention in 1904. Death was caused by intestinal trouble with which he has been suffering for several months. Governor Cox today issued the following statement regarding the death of Mr. Randall:

"The state suffers a genuine loss in the death of Mr. E. O. Randall. His service has been so specialized that it may be years before his place will be filled—in fact, he was high an institution in himself and the part which he has played in putting together the fabric of Ohio's history is a real contribution to his fellows. Very few men have done as much for this commonwealth."

AUDITORIUM

A Wonderful Picture.
Large crowds yesterday saw the opening of the four engagements of James Oliver Curwood's great story "Back to God's Country" in which Neil Shipman is the star, being surrounded by what is said to be the most unusual cast ever seen in movies. Besides the great number of actors and actresses, 10 varieties of wild animals are used. The scenes are laid North of 56 and in one of the scenes Wellington Player, who as Captain Rydal, makes a dive underneath the ice in the frozen Arctic.
In the story he loses his life by falling through the ice. He makes the real dive and you see him gradually sinking in the water under the broken ice, and it is not until the scene is "shot" that he swims back to the surface. His final warning was to make the footage short and no retakes.
This beautiful story of the northlands was taken from "Wapi, the Walrus," in "Good Housekeeping" written by James Oliver Curwood, the foremost portrayer of animal life of the present day.
"Back to God's Country" will be screened at the Auditorium for the balance of the week. It is also being shown at the Majestic theater, Columbia.

Coming Features.

As a rule the few days before the holidays, Managers of Theaters will out their programs, but not the case with the Auditorium for Manager Fennberg has added an extra feature to his picture program for the first three days. The photoplay to be screened is Constance Talmadge, who is seen in The First National Exhibitors Circuit feature "A Virtuous Vamp," adapted by John Emerson and Anita Loos from Clyde Fitch's "The Bachelor."

The added feature is the big musical sensation "Bell's Famous Hawaiian Singers, Dancers and Instrumentalists" including Princess Lei Lohena, Hawaii's Most Graceful Dancer.
They will offer then spectacular musical production "Moonlight in Aloha Land." The management has gone to great expense to bring this novelty to Newark, but wishing to hold his business up to the usual standard, he believes that the public will turn out notwithstanding that shopping is now in full force for Xmas.

Joe Martin, the clever monkey comedian, comes to the Auditorium Sunday and is seen together with Louis Dennis, who is seen in a Goldwyn "High Pockets" a western story.

"A Virtuous Vamp."

Constance Talmadge in her second production for First National Exhibitors Circuit, "A Virtuous Vamp," will be seen in the Auditorium theater commencing Monday.

Constance Talmadge in "A Virtuous Vamp"

John Emerson and Anita Loos, the screen's foremost writers have adapted this story from Clyde Fitch's play, "The Bachelor." Miss Talmadge takes the part of a girl whose captivating smile causes her many heart throbs.

ALHAMBRA

"Vagabond Luck."

A boy, a girl, a horse and a horse combine to form a most interesting photoplay in "Vagabond Luck," which opens today at the Alhambra theater and sent audiences away with the happy feeling of having seen something worth while. Albert Ray and Elinor Fair, the clever young Fox stars, are the boy and the girl. The old horse Vagabond, left by the girl's dead father, is entered in a race to bet on which the old horse is mortgaged. The happy outcome is brought about by a most ludicrous "miracle."

While the "racy" atmosphere is unusually well done, the whole spirit of the picture is wholesome and "homey," with enough of the "love stuff" to make it most palatable for everybody. It is shown today and tomorrow.

Lord and Lady Algy.

"Lord and Lady Algy," the new Goldwyn photoplay in which Tom Moore is starred, again demonstrates the possibilities of the screen to present vast, spectacular effects without in the least affecting the dramatic merit of the story. The picture, which will be shown at the Alhambra theater starting tomorrow combines some of the most colorful spectacles with a beautiful and dramatic story. A huge ballroom scene and the running of the Derby are both shown vividly on the screen. The limitations of the theater strike one especially in a picture of this kind in which the important events are pictured, a thing physically impossible for the stage to accomplish.

In the story, which was first produced as a play, the author R. C. Carton, presents a young Lord and his wife estranged because of his love of betting. Although the young people see each other, they meet only as friends, but the wife is always watching her husband's betting deals, and endeavors to discover the horses he favors, only for the sake of backing others and thus making good his losses which he inevitably rolls up. The climax is reached when Lord Algy is financially ruined through his plunging on his own race

Alhambra Notes.

Herbert M. Dawley is the discoverer and photographer of the land of mystery in "The Ghost of Slumber Mountain" these giant monsters of the past are seen to breathe, to live again, to move and battle as they did at the dawn of time. This is a one reel sensation and is to be shown next week at the Alhambra together with Geraldine Farrar in "The World and Its Woman."

Peggy Bayland, the English beauty will be seen at the Alhambra on Sunday in the William Fox feature "The Web of Chance." A comedy is also promised.

LYRIC.

Gilbert's Honey Moon Girls pleased three large audiences yesterday afternoon and evening, at the Lyric theater in their presentation of "The Awkward Squad." The same bill runs this evening. The movie picture "The Trail of the Octopus," is especially good.

GRAND

Lake George and Lake Champlain and lumber camps on the Schroon River furnish the scenic background for Virginia Pearson's newest picture "Impossible Catherine," which is showing to day at the Grand theater.

John B. O'Brien, director general of the Virginia Pearson Photoplays, Inc., and Frank S. Deesford, author of the story, searched out the locations on an automobile trip. When they arrived at the famous logging camp situated on

Pins and Needles.

After being for a long time in a constrained attitude a peculiar numbness and pricking is often felt in the arm, the leg or the foot. This is caused by some interruption to the circulation of the blood and can usually be removed by rubbing or exercise. The reason for this sensation, which is decidedly uncomfortable, is that pressure for a certain length of time deadens the sensibility of a nerve. When this pressure is suddenly removed (as in straightening out the leg after sitting with it doubled underneath the body) sensibility gradually returns to the nerve and as each nerve fiber composing the trunk regains its normal condition of sensibility a pricking sensation is felt, and these successive prickings from the successive awakenings of the numerous fibers have not inaptly been called "pins and needles."

HAD TERRIBLE COUGH AND NIGHT SWEATS

Cough about gone, eats and sleeps well, and gained 12 pounds.

"In December, 1913, I had a fearful cough, and my physician ordered me to change climate immediately. I went to San Antonio, Texas, and entered a sanatorium. Left there and came to Oklahoma City in October, 1915. Had no appetite, could not sleep, had night sweats and was losing from one to three pounds a week. I also had catarrh of the bowels, which the doctors had been unable to relieve.

Relatives urged me to try Milks Emulsion. I did so and began to improve, slowly at first, but steadily. My weight has increased 12 pounds, I have no temperature, and my cough is about gone. I can eat heartily, sleep well, and am working at my trade again."

W. W. Neff, 610 No. Dewey St., Oklahoma City, Okla.
Nature does wonders in fighting off disease, if given the chance. Milks Emulsion is a powerful help in providing strength and flesh. It costs nothing to try.
Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. Chronic stomach trouble and constipation are promptly relieved—usually in one day.
This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.
No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

Stand by Him.

She was a sweet, young bride, who had already found that what looks like a nice piece of meat in the shop often seems to have gone through a private transformation when it arrives home. "How is it?" she inquired eagerly, when an old married friend called upon her, "that you always manage to have such delicious beef?" "It's very simple," replied the older woman, "I first select a good honest butcher, and then I stand by him." "Oh, I see, you give him all your trade, you mean?" said the innocent young bride. "No," answered her companion, grinning, "I stand by him while he is cutting the meat!"

ADVOCATE BUYS OLD MUSIC HALL; SCENE OF FIRE

The Advocate purchased the Music Hall property from the Vadakin and Bolton estates today.

The property adjoining the Advocate building in West Main street was the scene of a great fire on the morning of December 4th. The fire not only wrecked the Music Hall building, destroying the George H. Long stock of hardware and general merchandise but spread to the Rider block and resulted in a loss of about \$100,000 worth of property.

The property conveyed by the Vadakin and Bolton estates to the Advocate consist of a piece of ground 50 feet in width and 100 feet deep together with a strip 9 1/2 by 100 feet between the Rider block and the Odd Fellows building as an entrance from West Main street to the old Music Hall.

The Advocate expects to build a two-story fire resisting structure upon the Music Hall site in the spring and to use the building for mechanical equipment. In the meantime the West Main street entrance to Music Hall will be remodeled and will be rented.

The Advocate now occupies four floors of its West Main building the basement being used for a press and stock room. The additional ground will provide room that is needed for expansion of the printing plant.

ELEVEN YEARS OF RHEUMATISM NOW FINALLY RELIEVED

Randolph Co., Ind., farmer's joints ached so bad he could not sleep, but had to get up and walk the floor.

Declares Drecto wiped out every pain for him after he had tried many other remedies.

"For the past eleven years I have not known what it was to be free from rheumatism," are the words of that highly esteemed farmer, Mr. Ferrell Clemens of Union Port, Randolph Co., Ind.

"My back ached constantly and I was so stiff I could hardly bend over. My joints ached so badly at night that I could not sleep but would walk the floor. My kidneys were acting bad and my liver was sluggish. I tried everything I heard of that was good for rheumatism and aching joints, but they failed to do me good."

"One day I was in Muncie and heard a lot of talk about Drecto and the marvelous good it was doing for the folks around there, so I bought some Drecto, took it home and started taking it. That proved to be the best money I ever spent for soon my joints began to grow easy, and before many days had passed I was free from pain; something I hadn't known for years. The pains have not returned either, so I'm very happy over my deliverance. My liver has been worked off well and my kidneys regulated. Drecto sure is one grand medicine."

Drecto acts on the bowels and relieves constipation, thereby removing the cause of many troubles. It will be noticed after taking Drecto, the headaches fall to appear; the nerves are soothed, sound sleep is induced; the appetite increases; no more dizzy spells; the stomach digests the food, without having gas and flatulency; the kidneys perform their duty of straining the poisons from the blood, thereby putting a stop to rheumatism and other disorders.

Drecto is now sold by all progressive druggists throughout the country and is highly recommended in Newark by Evans' Cut Rate Drug Store.—Adv.

First Safety Bicycles.

The first of the safety bicycles was put on the market in 1880. In this the high front wheel was reduced and the rear wheel was about two-thirds the height of the front one. The machines with wheels of the same size appeared in 1885. Bicycling began to be popular about 1891, and the "craze" reached its height about 1895, when wheels had become low enough in price to be within the means of the multitude.

BOWLING

The machine operators and the packers of the American Bowling Congress clashed in a quintette match on the Pastime alleys yesterday afternoon, the former winning by 82 pins. Crane of the machine men found a path to the head pin in the first game and never lost it the entire distance, rolling 94 the second game, and piling up a total of 213. Shay also rolled a very good score.

Southpaws-Groundhogs.

The Southpaws came from behind last night on the Pastime alleys and outclassed the Groundhogs by 145 pins. The Groundhogs started strong the first game, but soon weakened. G. Fessler had high individual score and Noblicks rolled high total. The game was very exciting and a large crowd witnessed the contest. The Southpaws are willing to bowl a return game whenever the Groundhogs are ready. Friday night Zanesville will bowl Newark on the local Pastime alleys.

INVENTION THAT ALLOWS AIRPLANE TO FLY STRAIGHT UP MAY WIN \$100,000

Propeller of plane being adjusted to a testing motor and Peter Cooper Hewitt, at left, and Thomas Edison, photographed while inspecting the invention.

Peter Cooper Hewitt, noted inventor and scientist, has developed a new machine which he believes will do more than is required to win the coveted \$100,000 Michelin prize which awaits the man who invents a device for enabling an airplane to arise straight up from the ground and alight in a thirty-foot space. Hewitt claims his machine will do this and can be reversed while in flight without reversing or stopping the motor. It also can be raised and lowered with the quickness of a flying bat. This is made possible by a propeller that can be changed to any position during the flight. The new plane will be as fast as any made, Hewitt also claims. Thomas Edison, electrical wizard, recently inspected the new device with Hewitt.

SAYS INSURANCE MEN BEHIND STATE EXPERT

Columbus, Dec. 18.—Charges that Colonel S. H. Wolfe, formerly connected with the war risk insurance department of the federal government who has been employed by the Ohio legislative committee on administrative reorganization to investigate the state workmen's compensation fund was suggested to the committee by representatives of the private insurance companies were made in a public hearing of the committee in the senate chamber yesterday.

Senator Howell Wright, Democrat, of Cleveland, a member of the legislative committee said he had opposed Wolfe's employment because he believed him to be too friendly to the private insurance companies. Representative Dunn, Republican, also a member of the committee, defended Wolfe. As an ex-serviceman he said he resented insinuations against a colonel of the United States army. T. J. Duffy, member of the state industrial commission, replying to Dunn said he as a representative of labor did not propose to remain silent when attempts were being made to cripple the workmen's compensation law. Duffy said Charles Congwer, who represented private insurance companies had suggested the employment of Wolfe to make a check of the workmen's compensation fund. The meeting of the committee was held to receive suggestions for strengthening the compensation law but it degenerated into an investigation of Colonel Wolfe, the committee's expert. Wolfe was promoted to a colonelcy in the army for services rendered the government in drafting the war risk insurance act. He had charge of the administration of the law among soldiers in France.

CRAMPS AFTER EATING ENDED BY DR. PARKER

Jacksonville, O., Dec. 17.—"For years" says Mrs. John Geary, "I was troubled with gas on my stomach and bloating. Everything I ate caused misery and pains. After eating I would take cramps and suffer great pain. I have taken a lot of medicine and it did me no good. Then I tried Dr. Parker's Treatment for Indigestion and Constipation and was relieved at once. I think it a grand medicine for the stomach."

THE DANGER THAT LURKS WITHIN US

From childhood we have recognized the danger of contracting disease through personal contact with someone afflicted with a disease which is "catching." But—have you ever considered that within our bodies lurk a danger just as great as that of contagion. Most disease germs enter the system with the food and lodge in the stomach and intestines, there to multiply by millions and lie in wait in the intestinal tract, ready to strike down their human victim at the first weakening of some human organ. A recently discovered health necessity is antiseptic treatment of the intestinal organs—one that is just as important to good health as the antiseptic treatment of the teeth and mouth with tooth brushes and mouth washes. To meet this necessity Partola—"The Doctor in Candy Form"—has been invented. In the first place it does all that any laxative can do in removing accumulated waste matter and poisons from the system but in addition to this, it is a health-protecting antiseptic which tends to sterilize and disinfect the intestinal tract and drive out disease germs from it.

Don't be misled—there is nothing "just as good" or "just the same" as Partola candies. They are delicious, palatable and tasty bits of peppermint candy containing laxative and antiseptic properties but without the slightest "medicine taste." Get Partola from your druggist today and keep it in your home at all times. For sale at all good drug stores, 25c, 50c and \$1.00 boxes. Trial size, 10c.—Adv.

SAVING LIVES Great Home Remedy

Experience is the greatest of all teachers and when the terrible Spanish influenza epidemic first appeared and swept so swiftly over the country—wiping out entire families and causing untold grief and desolation—every possible medicinal remedy was frantically resorted to as means to check and relieve its terrible life toll. During October and November of 1918, when the epidemic was at its highest point, the discovery was made that in many instances the most effective way to fight Spanish influenza was to take a morning hot cupful of Bulgarian Blood Tea with the juice of half a lemon. It was found that this method of treatment started a rapid and increased blood circulation, quickly emptied the bowels of all body poisons, and gave the system the strength necessary to resist disease. Every sensible person will realize the importance of having on hand a package of this grand herbal medicine—go to your druggist and ask for Von Schlick's Bulgarian Blood Tea. If your druggist is out of it you should have it at once—quick shipment by insured mail. Send 65 cents for a two months' supply, or \$1.25 for a large family five months' supply. Address: Marvel Products Co., sole manufacturers of Bulgarian Blood Tea, Marvel Building, Pittsburgh, Pa.—Adv.

NEW DANCE FROCK FEATURES SHORT SKIRT OF PARIS

Soft silvery white brocade is combined with the silver lace and trimmed with rhinestone embroidery in this debutante's frock. The full skirt is gathered and puffed at the lower edge, while the silver lace is introduced at the sides to give a panther effect. From the bodice of silver lace falls a vine of blossoms. Here the short skirt of Paris makes its initial bow in an American frock to the American ballroom.

Germ diseases kill off more than the deadliest wars, says the United States Public Health Service. In 1917 pneumonia and tuberculosis killed 225,000 Americans, more than seven times the number killed in action in France.

Industrial accidents killed 3,400 persons and seriously injured 50,000 in the state of Pennsylvania in 1918, according to reports reaching the United States Public Health Service. Most of such accidents are preventable; many the result of carelessness. Safety First.

Ask Your Bank's Advice!

John Holbrook, a good farmer, was stuck with \$2000 worth of wildcat oil stock. "Help me to get out," he begged. "It's too late," his banker replied. "If you had asked me at first I would gladly have advised you; now your money is gone." . . . This bank seeks always to advise the farmers of our county so they will make money. In a broader way, such advice is given weekly by

The COUNTRY GENTLEMAN

Our bank is not merely a place to keep money. The best part of our duty is the free giving of such every-day advice as our customers need. We should like to see prosperity for every farmer in this neighborhood. And because we believe that the inspiration, the help, to be found weekly in THE COUNTRY GENTLEMAN will lead every farmer- reader into money-making ways, we recommend the placing of that Great National Farm Weekly in every farm home. If you have an account with us, instruct us to charge you \$1.00 for a year's subscription. If you keep your money elsewhere, come in, get acquainted, and learn more about THE COUNTRY GENTLEMAN. The next 52 big weekly issues may easily show you how to make in the coming year an extra \$100.00! What better investment can you make?

High Indian Birth Rate Gives Hope of Rejuvenating "Vanishing" Race

American Tribes No Longer Headed Toward Extinction. Intensified Educational Campaign Will Spread Gospel of Clean Living and Sanitation.

The new policy of the Government to assign lands individually to the Indian population of the United States and thus to break up the old Indian reservation system, gives rise to a problem of race amalgamation which the Episcopal Church in its Nation-Wide Campaign is facing as an immediate task.

The Episcopal Church has long been ministering to the Indian population of the country in its isolated but rather compact groups, but with the imminent scattering of the Indians among the white population, comes a still more pressing demand, a demand which the Church will endeavor immediately to meet. Medical aid, schools, religious instruction and vocational training are all means to the end of making the Indian ready for modern Christian society, according to the vast program of activities as laid down by the preliminary survey of the Nation-Wide Campaign.

Nurses and physicians will preach the gospel of clean and sanitary living conditions, and treat the Indians for their bodily ills. A high mortality rate has prevailed among all the tribes during the past years, due to a lack of proper sanitation and hygiene, and the native vigor of the American Indian is, however, no longer a vanishing race; his birth rate has surpassed its death rate.

Manual training schools will be established as a result of the Campaign, and a complete system of grade and high school installed. A thorough program of religious education will be offered and churches will be built for community worship. Training in home economics for the women and girls and in agriculture for the men will also be given.

The Episcopal Church feels confidence in this plan to Christianize and Americanize the Indians of the United States, because of the complete success of all its previous efforts in their behalf. Since 1823 the Church has conducted Indian missions, all with highly beneficial results.

The largest Indian mission operated by the Episcopal Church is that one in South Dakota, consisting of ninety-seven stations. These minister to 25,000 Sioux Indians, of whom 5,000 are communicants and 12,000 baptized but unconfirmed members. Two large schools for Indian children have been established there. The majority of the clergy are Indian and the congregation collects \$10,000 annually for its own church support. The school for the Oneida Indians in the Diocese of Fond du Lac, now

abandoned by the Government, will be taken over by the Church. Missions in New Mexico, North Dakota, Wyoming, Arizona, Nevada, Oklahoma, are also making progress in educational and religious training. Many of these have hospital wards and dispensaries. There are more than 335,000 Indians in the United States whose problem the Episcopal Church will attack with the increase in financial resources and workers that will be the result of raising the Nation-Wide Campaign fund of more than \$42,000,000. Of these Indians, 260,000 cannot read or write English, less than forty per cent are Christians, and fewer than one-half are citizens.

AUTO CLUB WILL ATTACK NEW LAW

Columbus, Dec. 18.—As soon as it becomes a law, the graduated automobile tax bill, which has been passed by both houses of the legislature and is now before Governor Cox, will be contested in the courts by the Ohio State Automobile association. The trustees of the Ohio State Automobile association meeting here yesterday decided to bring legal proceedings to annul the law on the ground that it is double taxation on automobiles. As soon as the measure becomes a law, the courts probably will be asked to enjoin state officials from making it operative.

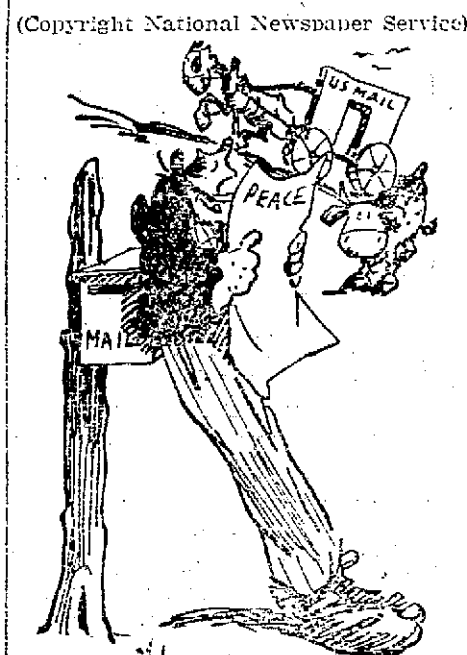

The trustees retained Attorney Walter P. Meals of Cleveland and Attorney C. D. Saviors of Columbus to handle the court action.

MAY COMPLICATE MATTERS.
New York, Dec. 18.—While the effect of the decision invalidating the restriction placed on imports by the British government may not be very great so far as the amount of the business affected is concerned, British trade experts here said that because of the contractual relations of America and British firms serious complications might follow.

SHAWNEE WITHOUT PROTECTION.
Columbus, Dec. 18.—The little mining town of Shawnee, Perry county, was without any officer of the law yesterday. The entire police force, consisting of Mayor John C. Fleming and Marshal John Turnbull, spent the day as witnesses in federal court here, despite their protests that their presence here left Shawnee without police protection.

RETURN YANK BODIES.
New York, Dec. 18.—Bodies of 2,500 American soldiers buried in England will be disinterred and prepared for shipment to this country by a party of three army officers and 50 civilians who sailed for England yesterday on the steamer Martha Washington.

Abe Martin

Th' hardest thing is t' know what t' do with your feet in a shoe repair shop. A feller ordered a steak with corkscrew at th' Little Gem Cafe today.

BLAMES SERVICE MEN FOR SLOW SETTLEMENT

Washington, Dec. 18.—Only 23,400 of the 724,990 claims for compensation for disability filed with the war risk bureau up to December 5 have been settled definitely. Director Chalmers Jones told representatives of the American Legion in conference here yesterday. Approximately 37,000 claims, he says, have been disallowed because the injuries proved only temporary.

Lack of co-operation by former service men was given by Mr. Chalmers-Jones as one of the reasons for the delay which, he said, have given rise to unnumerable complaints against the bureau.

"Literally thousands," of claims lie dormant at the bureau, he added, because the applicant for compensation failed to furnish requested information without which no further action can be taken on the claims.

SUES JUVENILE JUDGE.
Cleveland, Dec. 18.—Judge George S. Adams of juvenile court was made defendant yesterday in five suits aggregating \$150,000, filed by John H. Simpkins and his four children. Simpkins charges that on March 16, 1918, Judge Adams caused his four minor children to be wrongfully taken from him and placed in the Children's Aid society home and that he himself was wrongfully confined for a month in the observation ward of the City Hospital.

We do not know the cause or the cure for influenza but we do know that sunshine, fresh air and nourishing food will check tuberculosis and that the Red Cross Stalls which you buy will help to spread this knowledge.

Mr. Albert T. Reid, creator of the above sketches, is an artist and cartoonist of distinction. Mr. Reid has charge of the entire picture section for one of the major party National Committees. His cartoons are distributed each week to a reading public which reaches the stupendous total of more than fourteen million people. His cartoons have the "bite" and point that lift him entirely out of the commonplace. In his portrayal of pretty women and in the technical work of picture draughtsmanship, Mr. Reid has few equals. The sketches of Miss Binney were made from life.

Fading in with Barnabetta

By ALBERT T. REID.

It is somewhat strange that one seasoned in nearly all phases of the picture business as I have been, had never seen the inside of a great motion picture studio. However, such was the case and so, when I received a charming little note from Constance Binney saying she would be delighted to have me come over to the studio and see "us," and added, after a comma and a dash, "please do," I realized one of my desires was about to be gratified. Not only that but I was to have the privilege of seeing one of such charm and ability at her "work," and I looked forward in pleasant anticipation to my visit to the big studio at Fort Lee.

Nor was I in any way disappointed when I was ushered through the labyrinth and mazes of sets and scenes and what-nots, to that particular recess where they were working. I confess to a thrill that young girls must experience on the eve of their debuts.

Miss Binney, in party gown, was peeping from behind a side screen, and smilingly held out a welcoming hand that helped me overcome my "stage-fright." She led me over cables, around lamps and pieces of furniture to a "library" where they had just finished filming a scene. Stage hands and property men were hurrying the arrangement of the set which was to be the finale in her picture, "Erstwhile Susan."

I was initiated into the mysteries of making photoplays, and we talked of the picture, of her work, and everything and everybody in general. She is an easy favorite with all those about her, and she had nice things to say of all of them. A cat as black as the ace of spades came by and paused to brush lovingly against her.

"Here's Blackie," she introduced me, "and there are four more in Blackie's family,—the cunningest little things!"

Then she informed me, in case I were superstitious (which she is not) that black cats around a studio are the "best of luck."

We were interrupted by the cameraman, Roy Overbaugh, and Miss Binney went to stand at her ironing board that he might focus his camera. Another short delay, during which she arranged for me the "best seat in the house." This happened to be on a kitchen table beside her director, Mr. John S. Robertson, and the camera, and not over a dozen feet from her act.

Another surprise: I had seen many pictures of directors with huge megaphones, caps on back-side-foremost, riding breeches, stocky puttees, and collars torn away at their throats that they might bellow their directions at the actor people who were herded much like cattle. But Mr. Robertson sat in his chair, and gave his direction so quietly that only those to whom he was talking heard him. Never an impatient word, and it seemed easy and the natural thing to do to carry out his ideas.

"Ready, Constance," he said. "Now turn just a little to the side of your ironing board." Then instructions were given to the servants who were surreptitiously to watch Barnabetta, which is her play name, as she irons a pair of dress trousers. "All right, Jere," Mr. Robertson called to Jere Austin, "Start down the stairs."

The servants hearing the footsteps on the stairway scamper to cover. Jere stops at the door, and contemplates Barnabetta, and an understanding light comes over his face. He starts to cross the room noiselessly—but here, I'm telling the story of the play, or giving the ending, which is not ethical.

This rehearsal over, Mr. Robertson sends them all back to their places.

"All ready," he says,—"Fading in." I saw the camera was turning and then I realized I was the entire audience of the closing scene in "Erstwhile Susan," which you and millions of others will see on the screen, and which you will like exceedingly, or I'm a very poor guesser.

Some "close-ups," a few "stills," and then the entire scene was filmed again, for one negative is made for the United States and one for foreign countries.

During the waits, Miss Binney occasionally sang very softly to herself. She came over to have a look at the scene through the camera; she took a few steps of a pretty little dance, (above all else she can dance!); and she talked about the next "call."

When she came over to sit beside me she suddenly remembered she was not at a party, but was having her picture taken, and might wrinkle her gown "all up." So she had to continue standing.

Miss Binney is very much a girl, bright and vivacious and is all of five feet and three-quarter inches tall. She has been carefully reared and is the possessor of charming manners. She is a splendid conversationalist, well educated and read, and is devoid of "temperament." To me this "temperament" stuff spells simply a lack of poise, and my subject is poised to the final degree.

She drove me back to New York in her big car with Mr. Robertson, and our talk was as rambling as the New Jersey road we travelled. I heard her express an ambition to play a certain part, but I must observe this as a confidence; for if it became known it might be hard for Mr. Kane, president of Realart Pictures, to obtain the rights for the piece. And I hope nothing will prevent his getting it in which event, to indulge in some of our live language,—huh-leave me, Constance Binney can play it!

LEADING NEWARK MEN FAVOR PURCHASE OF PHARIS TIRE & RUBBER CO. STOCK

The leading men of the community are endorsing the \$250,000 8 per cent preferred stock issue of the Pharis Tire and Rubber Company. The five Newark banks and the Chamber of Commerce are on record approving the purchase of the stock and during the past two days endorsements over the signatures of J. S. Herzog, Frank L. Pegg, William H. Mazy, Roe Emerson, John A. Chilcote and Charles C. Metz have appeared in this newspaper. Today the written endorsement of J. R. Speck, Fred C. Evans and P. W. Jones appears. Others will appear tomorrow and from day to day.

The Pharis Tire and Rubber Company is increasing its capital stock for the purpose of buying ground, erecting buildings and equipping them to

increase its output of rubber tires. This stock is not taxable in Ohio and the dividends are free from the present normal federal income tax. E. D. Reese and H. M. Sayre are calling up on the people of this community in the interest of this issue. They will answer all questions and take subscriptions for stock.

The Pharis stock offers security of principal and good income on investment, two very important factors which concern every person who seeks an investment. Orders may be telephoned to any Newark bank or to the Pharis Tire and Rubber Company.

Mr. P. W. Jones, manager of the Buckeye Rolling Mill, when asked his opinion of the Pharis Tire and Rubber Company's 8 per cent preferred stock issue, made this reply:

"I am going to take some of the stock myself. I don't know how to say anything better for Pharis Company."

P. W. Jones

Mr. Fred C. Evans, real estate operator and former head of the Chamber of Commerce, gives two good reasons for the purchase of Pharis Stock. He says:

"Newark citizens should buy Pharis Tire and Rubber Company's preferred stock issue. First Because it is a good investment pays 8 per cent, is tax free. Second Here is an opportunity to help enlarge Newark institutions. This will give employment to Newark men and will keep Newark men and Newark money in Newark. This is the thing that we must do if we are to be a prosperous and growing city."

Fred C. Evans

Mr. J. R. Speck, one of the proprietors of the Lacking Laundry Company, answering an inquiry, writes:

"Replying to your favor of the 28th in regard to the Pharis Tire & Rubber Company, we think that it would be very much of an injustice to the Pharis Tire & Rubber Company if the people of Newark and surroundings would not buy the stock, as we think it a mighty good buy for anyone. We expect to take some of the stock but just at present we are adding some new equipment ourselves and it is taking all of our money, but a little later, that is before the stock is all gone we will buy some. The people of Newark have been complaining about industries here. Now we claim that this is a mighty good chance for them to show their hand, and we will be very much disappointed if this stock is not picked up very quickly."

J. R. Speck

Miss Pauline Goldmark, manager of the woman's service section of the U. S. railroad administration, is a strong advocate of equal pay for equal work. Miss Goldmark represented the interests of 101,000 women employed by the railroads during the war and the \$3,000 who have remained in service since. She has had an excellent opportunity to make some interesting studies of women in industry and believes that women have entered the business world to stay.

Numerals Came From Europe. That the system of numerals we use and know as "Arabic" had its birth in the ingenious mind of some ancient Hindu philosopher has been accepted as fact so long that to dispute it is to question a cherished tradition. Yet a profound student of Asia Minor and the intellectual characteristics of its various races makes the definite assertion that the Indo-Arabi-ans obtained the symbols with which they are credited, only at third hand, and attributes their origin to the European continent. From this source they were introduced by natural diffusion into India and Arabia. Nor did the numerals evolve from alphabetical characters, as supposed, but were designed for their purpose. The investigator's report at least opens the subject to new debate, if it does not wholly dispose of it.—Popular Mechanics.

DETECTIVES FIND NEW EVIDENCE IN DANSEY CASE

Find Hole Near White
Dahlia Field in Which
Officers Believe Boy's
Body Was Buried.

Atlantic City, N. J., Dec. 18.—New evidence has been discovered in the "Billy" Dansey case. Prosecutor Edmund C. Gaskill announced yesterday, which he believes will result in the arrest of two men.

If these men are taken into custody it is understood the charges against Charles S. White of Hammoncton, and Mrs. Edith L. Jones, housekeeper for White's father, will be withdrawn.

White was arrested about ten days ago, charged with the murder of the three-year-old boy, and Mrs. Jones accused of helping to conceal the death.

The boy, according to information reaching Prosecutor Gaskill, was slain in a barn near the White dahlia field and within a mile and a half of the Dansey home in Hammoncton.

A hole has been found near this barn by county detectives, who believe the boy was buried in it. Afterward, according to the detectives, the corpse was removed and placed in the Folsom woods, where it was discovered by gunners.

"The new information we have received is startling," said Mr. Gaskill, "and may be the solution of the mystery of the Dansey boy's death."

KILL 132 BUFFALOES FOR CHRISTMAS DINNER

Port Pierre, S. D., Dec. 18.—The most important buffalo hunt in more than 40 years has been completed west of the Missouri river. One hundred and thirty-two animals which composed part of a herd of 800 have been killed to supply demands from various western cities where buffalo meat is considered a Christmas delicacy. The buffaloes are the property of a pioneer rancher who started in business a number of years ago with a small herd.

CHARGES POLICE AIDED IN BIG BURGLARIES

New York, Dec. 18.—Thefts of hundreds of thousands of dollars worth of goods, planned by burglars in active co-operation with policemen, have been made in the last six months in Brooklyn, District Attorney Lewis asserted yesterday in a statement declaring that Patrolman Herman Crause instigated a \$12,000 robbery of a manufacturing furriers plant November 30. Crause and Peter Rueger, another policeman, were arrested in connection with this theft.

MEX. COMMITTEE TO GET AGENTS' REPORTS

Washington, Dec. 18.—Information obtained in Mexico and made the basis of reports to President Wilson, is expected to be given to the senate committee investigating Mexican affairs by John Lind, William Bayard Hale, Duval West and other special agents sent into that country by the President.

Besides hearing former unofficial representatives, the committee plans to summon former Secretary of State William J. Bryan and Lansing in order that its record of the relations of the two governments may be made more nearly complete.

WHERE COLD COMES FROM.
Chardon, O., Dec. 18.—For years called Ohio's coldest city, Chardon, 900 feet above the level of Lake Erie, was under an 18-inch blanket of snow yesterday with the thermometer registering zero.

Our Boys and Girls

When taking a child to have his picture taken don't impress the child with the feeling that it is a solemn visit and one to be dreaded as the doctors or the dentists. For if the child arrives at the photographer with this conclusion, his picture will show traces of fright or he will look quite unnatural and this is of course not what any parent wishes.

Allow him to be natural in the studio, and even to get acquainted with the surroundings and the man in charge. If you wish to get a natural, pleasing picture. When a child poses himself, he looks twice as artistic as when the photographer arranges him. I mean of course when the child does it naturally. Naturalness is the necessary keynote of a good picture in old or young.

If children are taught to hold a spoon properly, that is, to hold it correctly, there will be little trouble at the table. The handle should never be held in the palm, but the end should slightly protrude beyond the middle of the hand. With a child this means a smaller spoon, but the habit once required can never be taken away.

Everyday Etiquette

"When one receives an announcement of a wedding from people who are not intimate friends, is a gift necessary," asked Jim.

"It is not necessary for you to send a gift upon the receipt of an announcement. You should send your card to the bride or to the bride and groom or to both," answered his father.

A person can live weeks without food, days without water, but only a few minutes without air, says the United States Public Health Service. Persons who pay but little attention to the purity of the air they breathe are not careful as to drinking water and food. Become a fresh air crank. Raise the office windows.

Do not take drugs to cure the headache, says the United States Public Health Service. Consult a physician, a dentist or an oculist, to see if the cause can be located. Often the eyes, or the teeth may be at fault.

Cultivate the habit of walking with head up and the shoulders thrown back. It is cheaper and better than bottled tonics, says the United States Public Health Service.

ARMISTICE DAY IN LONDON

Premier Lloyd George placing wreath on cenotaph in London Armistice day. Armistice day was observed with fitting ceremonies in London. A proclamation was issued by King George requesting all industry and pleasure to stop for one minute at eleven o'clock on the day, and uncover in respect to the glorious dead. Premier Lloyd George's part in the ceremonies of the day was to place a wreath at the foot of the cenotaph in London.

Milady's Boudoir

Care of the Eyes.

It is the apparent indestructibility of the eyes that makes us so careless of them. How many persons we see each day reading on trains that jog along, each moment, changing the quality of the light, thus causing the eyes the violent strain of constant refocusing. Nowadays glasses have been studied with a view to their becoming quality as well as their aid to the sight. Oftentimes, it is because one has mistreated the eyes, that they are obliged to come to glasses early in life. Work done under the wrong conditions often is responsible for glasses being donned.

For instance, it is a mistake to read late at night or at any other time when physically or mentally worn out. It is a great temptation to read a book, sometimes, when the eyes are almost closed in sleep, but there is no better way to strain the eyes than to overwork them when they are longing for rest.

The question of a good reading light cannot be too often brought to the attention, especially when the school children are studying at home. It is more apt to be a poor light than the lessons, that tire the eyes and a child should not be encouraged to read story books after lessons are finished, as the studies are enough for one evening.

It seems very hard lines to be torn away from a fascinating book, but it is much better than headaches and the annoyance and expense of having to get and to wear glasses.

Carelessness with the hands and teeth causes more deaths in America every year than carelessness with motor vehicles, says the United States Public Health Service. Keep the hands clean, free from germs, away from the mouth and visit the dentist regularly.

MASONS RAISE \$30,000 ON DEBT

Goal Is Not Reached But
Special Committee Will
Continue Its Effort to
Complete Fund.

Members of the Masonic teams working to sell stock in the Masonic Temple company, last night reported subscriptions for \$30,000 worth of shares, reports being made at a dinner given to 30 committees at the Masonic Temple. F. L. Beggs presided at the meeting. Reports of the committee chairmen were recorded on a blackboard as the sums were announced. The reports ranged from \$500 to \$2300. Absence of many Masonic members from their homes and from the city where the committee workers called, resulted in the decision to continue the campaign under special committee to reach those who have not been solicited. While the full amount needed was not reached, the Masons believe that when the work is completed, every Mason will have stock in the temple and the debt will be raised. During the dinner last night, the Masonic chorus rendered several numbers.

SOCIAL AFFAIRS

The Ladies Aid society of the Neil Avenue M. E. church will meet in the church parlors Friday afternoon at 2 o'clock.

Invitations are being issued by the Alpha Pi fraternity for the annual dance to be given in Elk's hall, New Year's night.

Mrs. D. K. Leedy, of 450 Cedar Crest, entertained Tuesday evening, announcing the approaching marriage of her daughter, Miss Eva Leedy, to Mr. George Morrison of Canton, O., and of Miss Lucy Lott to Mr. Fred Slausinger, the marriage to take place during the coming holidays. The evening was spent in music and dancing and at a late hour refreshments were served to the following guests: Misses Lucy Lott and Eva Leedy, Mrs. John Groves, Mrs. S. Morrison, Mrs. Frank Leedy, Mrs. E. Leedy and daughter, Eleanor, Misses Freda and Katherine Scheller, Adda Andrews, Thelma Dutcher, Anna Glausinger, Selma Morrison and Grace Leedy.

Announcement is made of the engagement of Miss Harriet Block of Lima to Harry A. Karklin of Cleveland. The marriage will take place in the spring. Miss Block is a sister of Nathan Block, manager of the Boston

WINTER WHEAT CROP IS SHORT

Wet Weather and Hessian Fly Is Blamed For 12 Per Cent Reduction of Grain Acreage In Ohio.

Columbus, Dec. 18.—Ohio's winter wheat acreage is 12 per cent less than it was last year owing to wet weather and infestation of the hessian fly, according to the December crop report issued today by J. L. Cochran, chief of the Ohio bureau of agricultural statistics. The acreage seeded to wheat was estimated at 2,476,000 acres as compared with 2,814,000 acres last year. The report shows also a decreased rye acreage. One hundred thousand acres were planted in rye this fall by Ohio farmers. Last year the rye acreage was 116,000.

The winter wheat was two points under the 10-year average of 92 on December 1, while rye was two points above the 10-year average of 93. The reduction in wheat acreage is not an intended one on the part of the farmer according to Cochran. Wet weather, he says, came along about the time the farms were free of the hessian fly and prevented the farmers from seeding. This was especially true as to the southern part of the state, where seeding continued as late as November 20. Seventy-five per cent of the 38 counties reported the hessian fly in the early sown wheat. Unless heavy rains come next spring at the time the fly emerges the loss from this enemy may be enormous, according to Cochran. His report declares, however, that the greater part of the state crop apparently escaped the fly. Most of the crop was put out prior to the wet weather which accounts, he said for the fact that the December 1 condition was only two points under the average.

MOTHERS SO BUSY WITH NEW BABIES BOYS HAVE TO DO THEIR OWN SEWING

Didn't Want To Do It, But Teacher Knew Her Psychology and Made it a Dare.

At San Salvatore Mission, New York City, little boys are learning to sew.

Not nice little, prissy little, Lord Pauntleroy boys, but regular roller-skating, wide awake, honest-to-goodness fellows who belong to gangs and all that. And they are learning of their own accord. They don't make Paris gowns yet, or fancy knickerbockers for themselves, but they can sew buttons on with a bull-dog death grip stitch, and the mended holes and slits in their clothing are guaranteed to hold from the Battery to the Bronx.

Miracle? Not at all. Merely a matter of psychology.

That means in plain English that when "teacher" opined that boys couldn't learn to sew as well as girls, and openly dared them to try, they gallantly accepted the challenge and have been chasing the needle and thread ever since, with the same perseverance that they apply when accepting dares to walk fences, dodge automobiles, and jump from high places.

Until "teacher" discovered that "open sesame" to industry, there was a vexing problem confronting the mothers and little girls in the community surrounding the mission. Babies have a way down there of happening constantly, and almost every moment of the time of big mothers and little mothers is taken up in caring for the very littlest ones. It simply came to the point where they didn't have the time to spend on such trifles as missing buttons and torn trousers, especially when the owner of the damaged clothing happened to be a sensible, healthy, two-handed human being with plenty of spare time to waste.

So the problem was placed before the Rev. S. J. Noce, director of the mission. He in turn had a conference

YES! THEY ARE REALLY SEWING!

with the sisters and mothers. Everybody agreed that the boys ought to sew on their own buttons and mend their own clothes. But it remained for "teacher" to bring the miracle about. The San Salvatore Mission is maintained by the Episcopal Church.

The clerk also drew the names of 18 persons to serve as petit jurors for the same term, who have been ordered to appear for jury duty on January 12th, at 9 o'clock a.m.: Jesse Carninal, Hopewell township; Warren Brown, city; James Upham, city; A. R. Pitzer, city; J. W. Hanway, St. Albans township; John Belt, Hartford; Val Keller, Newark; Silas Anderson, city; Joseph Renz, city; Geo. Grandstaff, Hartford; E. K. Morrow, Harrison; W. T. Tracey, city; W. H. Wankley, Hopewell; George Beacher, Union; Oscar Mack, Bowling Green; Ira Wintermute, Madison; Carl Foster, Union; Robert Owens, Granville.

MR. ROBERT MORTHEW
Rep. of the Elwood Myers Co., gave a
very interesting talk to the student
body of the Newark Business College
December 17th, which touched on the
following essential points:
1. Be strong Physically: Need of
strong young men and women today.
Sound bodies, able to do a hard task
if need be.
2. Be strong Intellectually. Conser-
vate your mind. Make up your mind
you are going to do a thing and do it.
You can often as fast as you wish,
but you never reach the top without
climbing.
STICK TO IT AND WIN—should be
our motto.
3. BE STRONG MORALLY. Indulge
only in good habits. Keep good com-
pany. Our future life depends upon
ourselves. "We get out of life just what
we put in nothing more or nothing less."
Young women as well as young men
should cultivate themselves for the best
obtainable position in life. There is a
great opportunity for young people
today, more than ever before, therefore
more is expected of us, so we may be
ready to go out in life strong that the
wind cannot blow us away, or spell fail-
ure for us. **MAKE GOOD: APPLY**
YOURSELF.

possible heights. Your choice is your
own. Make it a worthy one. 12-18-1f

HAS HIGH PLACE IN HISTORY
Magellan Famed as Man Who Found
the Pacific and Completed the
Work of Columbus.

Four centuries ago Ferdinand Ma-
gellan sailed from Seville, Spain, on
the voyage during which he discovered
the Pacific ocean, named the Straits of
Magellan and opened the islands of
the Pacific ocean to the people of Eu-
rope. His was the first circumnaviga-
tion of the earth. Had he not been
imbued with the desire to be the gov-
ernor of a new world, in keeping with
the promise accorded him by Charles
V., the great geographer might have
attained even greater heights. In-
stead he died, before the three years'
cruise was completed, while in battle
with natives of a group of the Philip-
pine islands. He had discovered them,
along with Ladrones and Guam islands,
and was intent on making them Span-
ish.

The discovery of America by Co-
lumbus had not completely convinced
Europeans that the earth was round,
but the findings of Magellan clinched
the argument. He started with a crew
of 270 men and five vessels, but the
one ship that survived the cruise only
took back a remnant of that party.
Many died of scurvy, and some fell
during mutinies and battles with na-
tives. Magellan added much to the
world's geography. He outlined the
entire eastern coast of South America.
His discoveries offered the Spaniards
new opportunity, and they started to
further explore the Pacific. Spaniards
found and named California, after a
character in a Spanish novel. Then
for some unaccountable reason they
rested on their laurels.

BALD HEADS AT PEACE TABLE
Many Diplomats Had Whiskers and
Mustaches, but Lacked Hair on
Their Craniums.

An amusing sidelight on the recent
peace conference at Versailles is
thrown by a correspondent, who not
only reported the proceedings proper,
but took notes regarding the hair,
mustaches, beards and whiskers of the
peacemakers.

Two-thirds of the delegates were
more or less bald. Perhaps some of
them made up for this by wearing
mustaches. Out of 65 men who sat
round the peace table, all had must-
aches but 14.

Whiskers, on the other hand, were
not popular. Only three people wore
them, and by a curious coincidence
the names of all these three people
began with V. They were Venezelos
of Greece, Vandervelde of Belgium
and Vassitch of Serbia. The latter's
whiskers were particularly prominent.

In regard to dress, there was less
formal attire than one might have
imagined. The English paid no special
attention to dress. High hats and frock-
coats, once a combination that would
never have been sanctioned, were
quite popular; but there were some
countries which put all they knew into
their attire. These were, notably, the
Japanese, and some of the South
American states.

The New Age.
A pretty Philadelphia girl at a
Newport dance wore a rose-colored
gown of the new "bareback" fashion.

Very décollete in front, the gown's
bodice in the rear opened in a broad
V almost to the waist. There were
no sleeves to the rose-colored gown;
on the contrary it was cut out under
the arms like the jerseys worn by ath-
letes. It had, to be sure, a dainty
wisp of a train, but nevertheless the
flimsy skirt was so exigent that as
the girl whirled about the ballroom
to the wild strains of the jazz band
it was frequently possible to see that
her garters had ruby buckles.

A Philadelphia matron said to
George Gould as the girl floated past:
"Joan is a lovely creature, but all
her interests are wrapped in clothes."
"Evidently her interests only
ma'am," said Mr. Gould with a cyni-
cal smile.

Please, Doctor, Make Us Pretty!
Dr. Seymour Oppenheimer of New
York writes to the Medical Record ex-
pressing the hope that the long strides
made in what is called "cosmetic" sur-
gery during the war may not be lost
to the civil population.

He says that this surgery for the
sole purpose of beautifying ugly per-
sons was always considered "rather a
shady business" in which no reputable
surgeon would engage.

But there are so many ugly faces
and their beautification would make
their owners happy, some surgeon the
richer by a fee, and the world at large
happier for not being obliged to look
at ugliness, that this is the auspicious
moment for taking cosmetic surgery
out of the hands of charlatans and
quacks and putting it into those of
skilled practitioners.

A Drawback.

Jacob Ruppert, the New York brew-
er, told at a luncheon a story about a
war profiteer.

"He gave a dinner one night," said
Mr. Ruppert, "and when his wife en-
tered the drawing room he was as-
tonished to see her in a very décol-
lete dinner gown—no sleeves, very low
in the front, and lower still in the
back. His wife had never worn a
décollete gown before and the profiteer
stared at her in bewilderment.

"Well," she said, "don't you like it?
Don't you like this Paris confection,
darling?"
"Sure I like it," said the profiteer,
"but what I want to know is, honey,
where the dickens are you goin' to
tuck your napkin?"

of production. Has had offers for its
entire output. Is assured of an unlim-
ited water supply. Wonderful loca-
tion with superb shipping facilities.

PROBABLE PROFITS

The capacity of present buildings of the company will
be 1000 tires daily. To give an idea of the earning pos-
sibilities, suppose the company is making only—
500 tires a day with an average profit of \$5.00 per tire.
Figuring 300 working days, they will produce 150,000
tires per year.
Which amounts to a gross earning of \$750,000.00.
Deducting \$45,000.00 from the earnings to pay divi-
dends on the preferred stock, it would leave a handsome
earning for the common stock.

Air Mail Delivered at Sea.
The first aerial mail delivery to a
ship at sea was accomplished August
14, 1919, when an airplane flying boat
dropped a sack of European mail on
the deck of the White Star liner "Adri-
atic" leaving New York. The experi-
ence was an official test, undertaken
at the request of the post office depart-
ment and may be put into general op-
eration. The flying boat overtook the
"Adriatic" just as she was passing
out of the Ambrose channel. After
circling around the liner a few times,
the pilot, C. J. Zimmerman, came down
to within 50 feet of the ship's masts
and dropped the mail bag. Some 300
passengers crowded the promenade
deck of the boat and watched the ex-
periment. Their cheers echoed down
the bay as the bag was successfully
hauled aboard.—Mekeel's Weekly.

French Memoirs.
The French surpass every other na-
tion, indeed all the other nations of
Europe put together in the amount
and excellence of their memoirs.
Whence comes this manifest superi-
ority? The important collection relat-
ing to the history of France, com-
mencing as early as the thirteenth cen-
tury, forms a basis of civil history,
more authentic, circumstantial and
satisfactory to an intelligent inquirer,
than is to be found among any other
people. And the multitude of bio-
graphies, personal anecdotes and shu-
lar scattered notices, which have ap-
peared in France during the two last
centuries, throw a flood of light on
the social habits and general civiliza-
tion of the period in which they were
written.—William H. Prescott.

Unnecessary.
Mr. Datz—"You ought to brace up
and show your wife who is running
things at your house."
Mr. Meek (sadly)—"It isn't necessary.
She knows."—Life.
